BRETFORD®

Pulse® L Cart

Supporting today's ever-changing working and learning environments. Designed for laptops and ultrabooks, these carts feature a contemporary design, small footprint and power and cable management.

Polypropylene

Polypropylene shelf dividers store devices vertically and protect them from scratching

Cable Management

Front of the cart offers notched cable management channels to position cords neatly above devices

Locking Casters

5" directional locking casters allow for maximum control during transport

Shipping
Ships fully assembled, ready to install devices.

Certifications

Smart Design

Perforated exterior to help keep devices cool, side panel includes a cord winder to keep the power cord neat and out of the way.
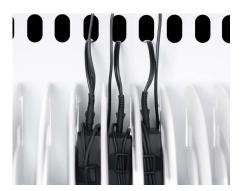

Safe

Polypropylene shelf dividers store devices vertically and protect devices from scratching.

Locking Casters

Easy-rolling 5" all swivel, two-locking casters for tight spaces, that when in fixed position, provide added directional control.

Full-access doors

Optional full-access double doors or back panel in the back of the cart, and removable plats with VELCRO straps help make cable management a breeze.

Cable Management

A cable management channel in the front of the cart guides cables to each device

Power Manager

Sophisticated power manager continuously analyzes power requirements and efficiently charges devices in a round robin cycle-all from one 15 Amp electrical circuit.

Easy IT Administration

Full-access, double doors in the front of the cart for the user, and the choice between double full-access rear-doors or removable back panel in the rear of the cart for the IT Administrator.

Standard Color

Duotone finished in Concrete/Aluminum.

Safe

Designed with safety in mind to ensure safe operation, with the entire cart listed to UL 60950-1.

All-Steel Construction

Cart is constructed from prime steel, which contains 25 to 35 percent post-consumer recycled content and is finished with powder coated paint.
