## Shipping

Ships fully assembled, ready to install devices.

### Secured

Hardened steel shackle for extra cut resistance. 4-digit code can be easily set and reset.

### Safe

Polypropylene slot dividers help keep devices safe and protected.

### Cord Management

Storage bins in the rear of the cart provide ease of cable management and organization of cords.

### Organization

Adjustable slot numbering bars allow for device organization.

### Power Switch

Power switch and 12-foot power cord are located on the left side of the cabinet.

### Options

Available in three models, supporting up to 45 devices, with AC charging capabilities.

### Safe

Designed with safety in mind to ensure safe operation, with the entire cart listed to UL 60950-1.

### Adjustable

Adjustable dividers allow users to customize the slot dimensions from 1" to 1.5" supporting various sizes of devices.

### Efficient

Digital timer system ensures devices can safely charge without overloading circuit breakers, using a single cord from the cart to wall outlet.

### All-Steel Construction

Cart is constructed from prime steel, which contains 25 to 35 percent post-consumer recycled content and is finished with powder coated paint.

### Standard Color

Black (BP)

### Color Options

### Panel Options

Cart is available with standard removable back panel, or optional rear door.
