

TRANSFORM YOUR BOTTOM LINE **WITH THE MT69** MOLECULAR TRANSFORMATOR

cps[®]

Innovations in Design™

TIME IS MONEY

The Pro-Set MT69 was designed to dramatically **increase the performance of any recovery machine** cutting time spent recovering refrigerant in half or more. A must for recovering R410A on hot days, the hotter it gets the better it works. Equally useful for recovering liquid refrigerant on cold days.

Test results show time to recover 15 lbs of R22 at 120° F

With MT69 = 17 minute

Without MT69 = 32 minutes

The Workingman's Choice™

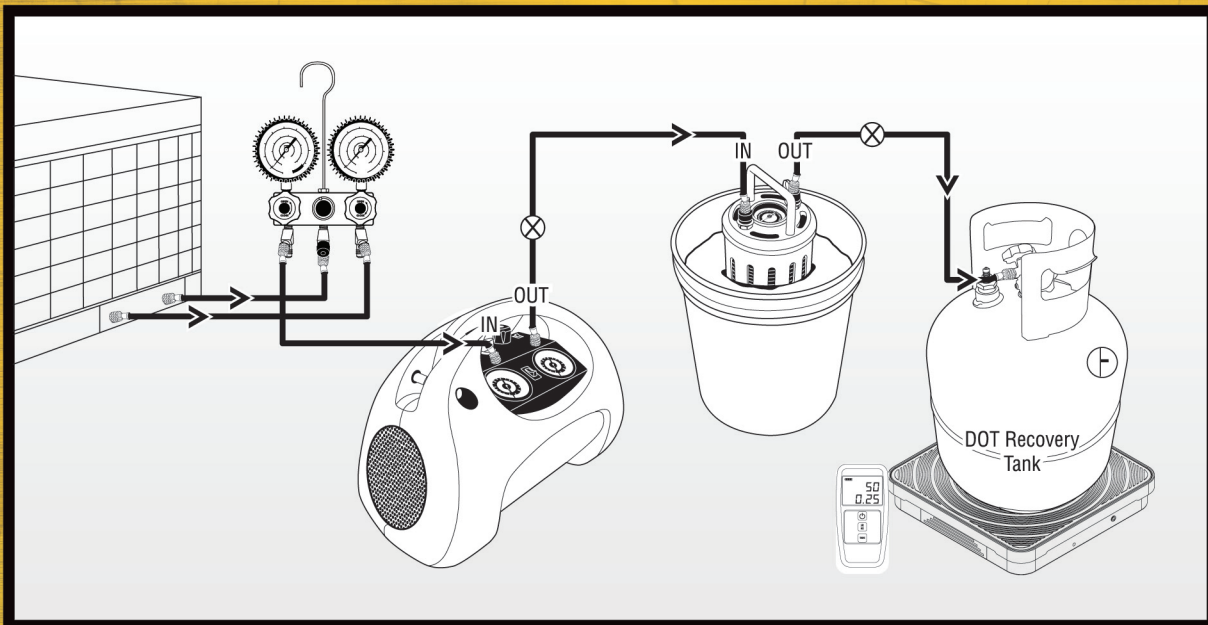

INTRODUCING THE PRO-SET® MT69 MOLECULAR TRANSFORMATOR

cps®

Innovations in Design™

Designed for use with any recovery machine, the MT69 transforms molecules of hot refrigerant gas into molecules of refrigerant liquid. It also transforms molecules of cold refrigerant liquid into a warm refrigerant gas. The MT69 was designed to save time and money when doing refrigerant recovery work. It makes any recovery machine perform like a champion.

- Functions as a submersible condenser or evaporator
- Pays for itself on the first big job of the season
- Cuts recovery time in half
- Maintenance free
- Puts money in your pocket every time you use it
- Rugged, compact and easy to use
