

Product Notice

DATE: 27th November 2017
TO: All Sales Teams, Distributors and CSD Teams

Obsolescence Notice

Product: CX6100GE - DPI611/612 External Desktop Battery Charger

Background:

Due to low sales of the External Desktop Battery Charger option, we will be obsoleting the above part number as of **31 December 2017**.

Implications:

Please inform all customers/channel partners to place any LTB (last time buy) requirements prior to **31 December 2017**. After this date, the above part number will become unavailable and no new orders will be accepted.

Actions:

There are a few customers who need to be advised of the withdrawal of this products in addition to the pressure channel partners and resellers. Please work with them to assess LTB requirements.

Our application engineers are available to support and answer any application questions.

Possible alternative Product:

DPI612 – Lithium-ion battery (P/N: CC3800GE) and charger (P/N: IO620-PSU) are supplied as standard to enable customers to recharge the battery within the unit.

DPI611 – (P/N: IO61X-BAT-KIT) can be ordered as a separate item which enables customers to recharge the battery within the unit, rechargeable battery (P/N CC3800GE is included in this kit).

		
(P/N: CC3800GE)	(P/N: IO620-PSU)	(P/N: IO61X-BAT-KIT)

Please let me know if I can clarify this further.

Best Regards,

Francesca Jackson
