ULTRA SHORT THROW FOR MAXIMUM FLEXIBILITY

Canon's new LV-WX300USTi and LV-WX300UST Projectors give users the power to present large images in tight spaces. The Ultra Short Throw capabilities of both models allow the projection of 80" diagonal images only 11" from the projector, and the LV-WX300USTi's interactive software allows for a collaborative experience – making this a powerful tool that will help engage audiences.

WORK AND STUDY WITH INTERACTIVE, ULTRA SHORT THROW PROJECTION

Up to four Interactive Pens, or other objects (fingers), can write simultaneously for collaborative experience

Finger Touch writing
(Requires optional Finger Touch Module)

• Ideal for use in space-restricted environments like smaller classrooms and offices

• Interactive functions allow users to greatly enhance presentation and lecture experiences by encouraging audience involvement

• Screens can be captured (as PDF* or JPEG files) and video can be recorded for sharing to reinforce key content/concepts

*Feature only available with Windows version.
