

POWER WITHIN REACH

As electronic device use grows in the workplace, so does the need for reliable and convenient power to charge devices. Chief's sleek and easy-to-install Desktop Power Centers mount directly on desktop surfaces while reducing cord clutter and blending in with modern office aesthetics. AC outlets and two USB-A ports make charging convenient for desks and tabletops so that device users can carry on with their daily tasks.

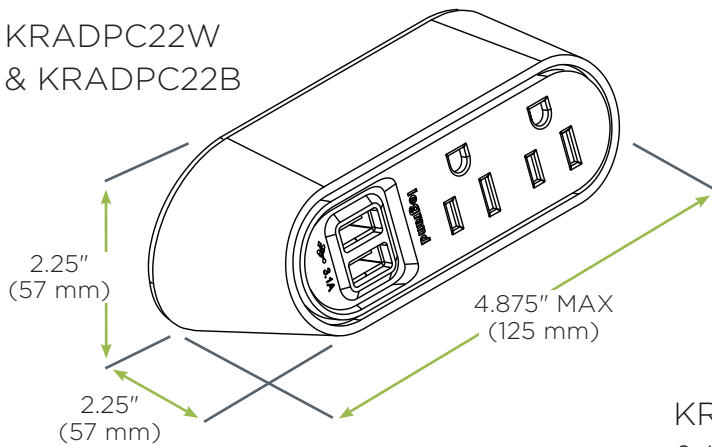

FEATURES

- Tamper-resistant AC power receptacles
- Smart charging capability recognizes devices and when to shut off during peak loads
- Power cord includes pass-thru plug allowing users to plug another device, such as a lamp, into back of the power center plug, ensuring users don't lose an outlet
- Desk clamp, horizontal and vertical mounting kits all included
- RoHS compliant
- Quick ship item
