INSTALLATION INSTRUCTIONS

RPA SERIES PROJECTOR LOCK
(PL-4)

The PL-4 Projector Lock is designed to provide security for your LCD/DLP Projector when it is attached to the RPA series ceiling mount.

INSTALLATION

1. Two methods of installation are possible:

    a. Run steel cable through projector handle and then through RPA series ceiling mount.

    b. Before attaching adhesive plate, clean area on projector with alcohol wipe. Attach the adhesive retainer plate to exterior chassis of the projector.

NOTE: Adhesive will secure retainer in plate to projector and become fixed. For maximum adhesive strength, adhere retainer plate to projector and do not attempt to remove the cable lock right away. Allow the adhesive to become stronger and cure over time.

2. Securely lock cable to cylinder lock.

3. Retain keys.

PARTS LIST

Unpack the shipping carton and check for the contents listed in Table 1.
