Display technologies

Christie has a full range of leading-edge products and technologies that can be seamlessly integrated to create the most advanced display wall solutions. Choose one display technology, or combine multiple platforms to create impressive displays that get noticed.

Christie Velvet indoor LED displays

Providing true 24/7 operation and seamless visuals, Christie Velvet™ is perfect for creating high-impact display walls. Their modular design can be configured into virtually any size or shape, for unmatched creative freedom. Benefit from the low energy consumption and the long service life of LED technology and create spectacular display walls that last.

LCD flat panels

Christie's range of affordable, ultra-narrow bezel LCD flat panels are perfect for creating high-definition tiled display walls with minimal seams. Easily add multi-touch interactivity and create engaging displays that attract audiences and hold their attention longer.

LED rear-projection cubes

Our Christie MicroTiles® and Entero HB rear-projection LED cubes are ideal for bright display walls with high pixel density. Combining the image quality of DLP® technology with the maintenance-free performance of LED illumination, our rear-projection cubes are used to create reliable, visually stunning display walls.

Projectors

In large front- or rear-projection applications, Christie projectors can help create stunning display walls in a variety of settings. Portable and featuring image blending and warping capabilities, Christie projectors provide an innovative platform for spectacular large-scale displays.

Processing and content management

Unlock the full potential of your display wall with Christie's range of processing and content management solutions. From the simplest to most complex displays, Christie has the solution.

With our Christie Spyder X20 and Christie Vista Spyder processors, you can easily drive the most complex display walls. This hardware-based image processor allows you to blend, window and scale a wide array of video signals with unparalleled quality and ease.

Our easy-to-use Christie Jumpstart content management system gives you the creative freedom to customize and display your content exactly how you want it and make the most out of your display wall.

Build your display wall now

Contact us today and discover how easy it is to build your own display wall. By working with Christie, you'll benefit from our industry-leading expertise and service and strategic partnerships with dealers and integrators. We know how to drive a project through to completion to fully support your display wall. With a decade of experience, backed by 85 years of success in the industry, Christie has the expertise to work for you.
