Software Release Notes

M Series v2.5.1

This document describes the changes from M Series version 2.5.0 to 2.5.1.

Affected products

The following products are affected:

- M Series

Purpose of release

The primary purpose of this software release for M Series projector is:

- Added support for Gratuitous ARP. When the IP address of the projector changes (statically or dynamically using DHCP), it sends an ARP request with its new IP address. Other devices on the network that can recognize a gratuitous ARP request can update their own ARP tables immediately.
