## LCD panels for impressive tiled video walls

LCD tiled video walls are ideal for control rooms as well as artistic and architectural displays of all sizes. With Christie®, you get the choice of a variety of professional-grade LCD panels offering the perfect combination of performance, features, image quality and price.

### Christie Extreme Series

The Extreme Series are high-performance 24/7 LCD panels with an extremely narrow 1.7mm combined bezel width and host of proAV features for the creation of impressive, near-seamless video walls. Featuring advanced panel matching, the brightness and color of each panel comes factory-calibrated to help ensure uniformity across the video wall. The Smart Light Control feature continuously monitors using a built-in sensor to provide consistent performance throughout its lifetime.

### Christie Ultra Series

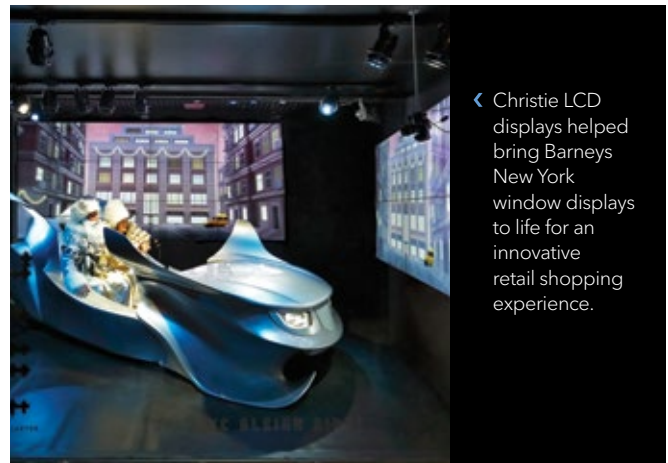

Producing stunning high-contrast and color-rich visuals and featuring a bezel-to-bezel width of 3.5mm, the Ultra Series lets you create stunning tiled video walls. Competitively priced and designed for long-lasting and reliable 24/7 performance, the Ultra Series is ideal for high-performance video walls.

### Christie LCD video walls: key features

- › Full HD resolution
- › Supports 4K resolution and scaling across video walls up to 10x10, multi-stream transport (MST)
- › On-board power supply and remote option with some models
- › Portrait and landscape orientations supported
- › 24/7 runtime
- › Brightness options include 500 and 700 nits
- › 49" and 55" sizes available
- › Full range of business features
- › Three years parts and labor limited warranty

## Remote power

The Christie Extreme Series is available with optional remote power via external AC-DC hot swappable supply modules. Built-in SNMP monitoring ensures that display status information is available.

◀ Christie LCD displays helped bring Barneys New York window displays to life for an innovative retail shopping experience.

## Christie 110" 2x2 LCD video wall bundle

Featuring four Extreme Series LCD panels, wall mounts, trim kit and all cabling, this premium video wall bundle consists of everything needed to build a high-performance video wall.

## Service and support

All our LCD flat panels come standard with a three-year commercial warranty. For added peace of mind and to maximize uptime, Christie provides advanced exchange and on-site repairs during the first year of your warranty.

## Processing and content management

Get the most out of your Christie LCD display by combining it with our powerful content management and processing technologies for a complete, integrated solution.

### Christie Spyder

For large-scale video walls with extensive processing needs, the Christie Spyder is the most powerful and versatile multi-window processor available.

### Christie Phoenix

Christie® Phoenix™ enables seamless access and control of audiovisual data from virtually anywhere, through a single, robust system. With Christie Phoenix EP, you can embed the same powerful processing of a Phoenix node directly into compatible Christie tiled video wall displays.

### Christie Pandoras Box

Christie Pandoras Box comprises the award-winning family of hardware and software tools for real-time video processing.

### Christie Terra

Built on standard SDVoE technology, Christie Terra represents an all-new AV solution enabling the transport, processing and control of audiovisual content, including 4K@60Hz video formats, over 10G Ethernet networks.
