The CPL was designed for our customers needing the mobility that comes with a small footprint and the flexibility that comes with rack rail compatible equipment. The CPL can accommodate audio visual equipment for presentations, store and charge computing devices for students, or secure valuables with rack-mounted shelves. Use any rack-mounted resource for whatever task you need the CPL to perform – wherever you need it to be.

Spectrum's Compact Presentation Lectern comes standard with smooth-riding 5" balloon wheels as well as double-bolt locks to protect valuable equipment inside.

Have a laptop-driven presentation? Our optional Instructor Module features a pull-out laptop shelf for the ultimate in impromptu presentations!
