Flat Panel Cart

JOLLI

The **ConenMounts** JOLLI **Flat Panel Cart** is the next generation of Flat Panel carts for education. The cart allows for the display to be smoothly raised & lowered and to be moved from classroom to classroom, connecting teachers and students with the latest technologies.
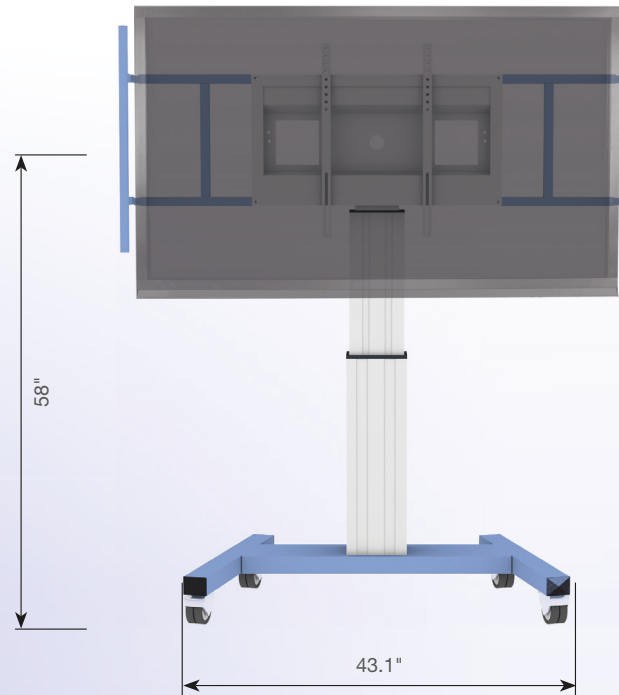

Designed for rugged environments the K12 cart features a sturdy metal base with heavy-duty casters. The V-shape base provides stability and ensures easy access for students in wheelchairs. Large ergonomic handles oneach side of the display aid mobility and help protect the display in transport.

Safely built into the aluminum center column of the cart is the UL certified actuator which offers 20" of smooth height adjustment. With a push of a button the display can be adjusted so that teacher and children can interact with the display.
