E-Series Extension

ES1 Slide Collar

EC1 Pipe Connector

Ceiling Mount

Installation

Holds up to four 32-65"+ displays weighing up to 150lb each, in either portrait or landscape orientation.

Fully Adjustable

360° lockable post-installation rotation and up to 20° tilt adjustment for precise viewing angle. Vertically adjustable and each screen may be independently rotated.

Cable Management

Easily route cables through the middle of the extension for a clean installation.

Kitted or a-la-carte

Choose a configuration to suit your needs. Select a pre-packaged kit or combine components based on field factors, such as structure, viewing angle and monitor mounting pattern.

Included in Kits

Everything required for installation: 10' pipe drop, heavy-duty ceiling adapter, and ceiling mounts. Ships in standard-size shipping boxes, making it both economical to ship and easy to handle on the jobsite.

Construction

Fabricated from high-grade cold rolled steel and aluminum with durable epoxy powder coat finish. Includes a complete array of high-grade fasteners, in a pre-sorted hardware pack for easy selection.
