■ Pre-assembled

Pre-assembled with a Universal adapter for quick, easy, and efficient installations.

■ Installation and Adjustments

Full roll, pitch and yaw adjustment with universal projector interface (1.5" thread). Convenient two-part construction for pre-wiring. Multiple tension points for secure, non-slip installations.

■ Quick-Detach

Open-ended quick-release mechanism allows for pre-installation through-pipe wiring as well as removal for maintenance.

■ Full Selection

Full selection of kitted, customizable, and economical solutions. Sold as kits or a la carte, configurable with Crimson extension pipes and ceiling adapters.

■ Construction

Fabricated from high-grade cold rolled steel and aluminum with durable epoxy powder coat finish. Includes a complete array of high-grade fasteners, in a pre-sorted hardware pack for easy selection.
