DS DATAMATION SYSTEMS INC

Rear door: inside view of QUICK➔SET
cable management

Model # DS-UNIVAULT-24

- Secures and charges up to 24 Chromebooks, notebook PCs (up to a 15" screen) or tablets on two shelves (12 per shelf), stored vertically

- Innovative and secure three-point locking system: simply *the most secure* cart of its type, *anywhere*

- Rear locking door with access only to the power strips and cabling; allows fast, easy, secure set-up

- Power supply bricks plug directly into IEC adapted outlets. This removes 72 feet of cabling, making the installation/integration of the cart quicker and neater than any conventional cart (QUICK➔SET).

- 24 power outlets; two auxiliary outlets configured for any block plug use; single exit cord; external lighted on/off switch, IEC adapters included

- Molded cord wrap brackets for safety and convenience

- ABS fire-rated plastic dividers; removable and adjustable in ¼" increments

- Additional equipment can be placed on top

- ETL Listed for safety

- Four 4" medical grade wheels (4 swiveling; 2 locking)

- Color-coded keying for front and back compartments

- Weight: 132 pounds (empty)

- Dimensions: 24.5"W x 23.3"D x 40.5"H

- Shelf dimensions: 1 5/8"W (adjustable) x 17"D x 11 ¼"H

- Proudly made in the USA
