## Dewey the Document Camera Stand

Model #: DCS1

### Product Features:

#### Height Adjustment:

Simply push in the snap button and move the unit up or down.

At the highest height there is a safety feature to stop you from completely separating the unit.

#### iPad Holder:

Smallest device supported is 18.4 cm W x 23.5 cm H x 0.9 cm D (7-1/4"W x 9-1/4"Hx 1/2"D)

Largest device case supported is 20.3 cm W x 24.8 cm H x 2.2 cm D (8"W x 9-3/4"Hx 7/8"D)

#### Document Camera Position:

Dewey allows the iPad to work like a document camera. The projected image can change from landscape to portrait, by rotating Dewey's head 90 degrees.

Lowest position of the Document camera from table to camera is 12-1/2" (31.8 cm).

Highest position of the Document Camera from table to camera is 19-9/16" (49.7 cm).

#### Stand Position:

Dewey can be rotated to be used as a stand for your iPad. By rotating the head 90 degrees the image changes between landscape to portrait position.

#### Stability:

The shape of the Dewey adds stability to the unit in all the different heights and positions.

The base with the rubber pads stops Dewey from sliding around on the surface and falling down when the surface gets hit accidentally.

#### Cable Management / Wire Management:

The provided elastic holds the VGA cable in place when connected to your iPad, and stops the VGA from getting disconnected when changing position and view.

#### Paper Size Support:

In each hole position Dewey covers different surface sizes.

Model #: DCS1

**Paper Position Template:**

There's no need to struggle with where to position your material. The provided Paper Positioning Template fits in between the open space of the Dewey base. It helps with positioning an 8.5" x 11" paper in Document Camera landscape and portrait mode within different heights.

**Estimated Carton Size & Weights:**

	Part No.	Carton Size O.D. W x D x H	Carton Weight	Shipping Size - cu. Ft.	Shipping Weights
