Spectrum's Media Director is designed to simplify the use and integration of a multi media lectern. We've designed the Media Director so that integrating podium lecterns couldn't be easier. A total of 52 rack units of rack rail are easily accessible from both front and rear to offer flexibility for the audiovisual setup of your choice. Quick-release doors and coordinated pass-through grommets simplify integration even further. Need to use monitor arms or a power/communication module? The Media Director includes standard cutouts on the worksurface for 2 arms and 1 module that double as grommets when not used. Overbridge models use an overbridge console specifically for the installation of training and presentation controls. Don't limit your integration potential – let the Media Director help you achieve your AV goals.

Construction

- The worksurface, mid, and base panels are constructed from 1/16" thick NAUF (No Added Urea Formaldehyde) composite board with .030 high-pressure laminate on one face, and a balancing phenolic backer on the opposing face
- Metal components consist of 16-gauge and 20-gauge steel
- 16-gauge steel doors and corner columns
- Worksurface edges are covered with 3mm vinyl
- All metal components are finished with a scratch-resistant powder coat epoxy
- Solid wood corner trim
- Each Media Director V2 Lectern is factory-assembled with casters, packaged, and shipped on its own skid

Note: The insert panel shown (shaded) is not included with the lectern or overbridge. This option needs to be ordered separately to complete the overbridge. This insert panel is horizontally symmetrical and can be easily removed, rotated, and re-installed if a cutout needs to be relocated to the opposite side of the overbridge.

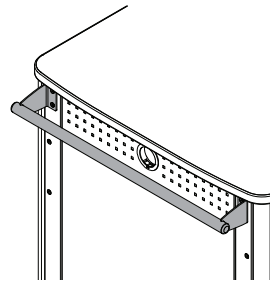

Options

Note: The flip-up shelf and steel handle can be mounted on either side of the lectern. Both can be mounted on the same side, but the shelf needs to be mounted in a lower position to provide enough clearance for the handle.
