Product Description

The AVerVision300AF+ is a full feature document camera perfect for any classroom environment or subject. With an incomparable 3.2 mega pixel sensor, the images produced are the clearest and sharpest available in its price range. The auto focus quickly adjusts to produce a sharp image whether at standard zoom and pan, or the full sixteen times magnification. Able to capture up to 80 images to the camera itself, or images and video with audio to a PC or MAC, lesson content can be stored and reviewed at any time. Able to integrate into most other classroom presentation products

interactive whiteboards, the AVerVision300AF+ can easily combine with other technologies. Included laser positioning guides take guesswork out of where to place a document or object under the camera while the 360 degree access full function remote control allows presenters to control the AVerVision300AF+ from anywhere in the room. Optional microscope adaptors allow virtually any microscope to be connected to the AVerVision300AF+ to show the smallest microscopic detail on a large screen.
