

AP20t Teacher Pen

AVer's groundbreaking slate alternative that works on virtually any surface without a bulky board or hefty price tag and is the ultimate in mobile curriculum control! AVer makes it easy to use: no new software to learn! Control any program on your computer, including your favorite interactive, document, or editing software from anywhere in the classroom.

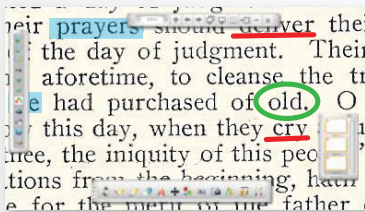

Only \$129.99 MSRP* - AVer's A+ Software Included for FREE!

At less than half the cost of an interactive slate, the AP20t Teacher Pen provides total hands-on curriculum and software control without breaking your budget. *Education Discounts Available!

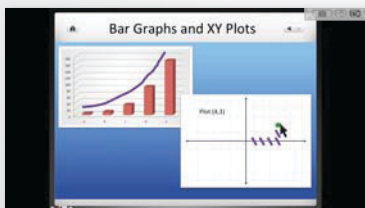

Real time annotation

Annotate on live images like labeling parts of a splitting cell under a microscope in the A+ Software.

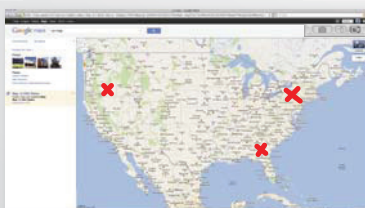

Document markup

On the fly corrections: Highlight nouns, underline verbs, or circle adjectives in any PDF or Word document. Control all document functions like scrolling up and down, zooming, and highlighting.

PowerPoint interaction

Control and mark up PowerPoint slides as well as interact with objects.

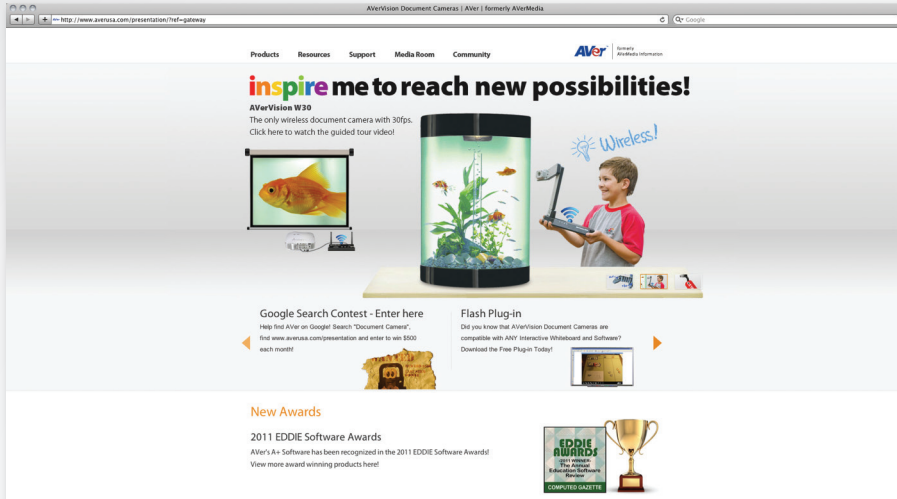

Browser markup

Find an image of a US map and have students mark the locations of their summer vacation trips. Save paper and use the World Wide Web for your teaching content!

Why AVer?
