inspire me to directly integrate with IWB software!

AVerVision **Flash App**

AVer has made it even easier to integrate our award-winning document cameras into other third party programs! The AVerVision Flash App is FREE software that lets you use your AVer document camera inside other popular classroom software environments. The AVerVision Flash Application is the perfect solution for classrooms with multiple pieces of technology. **Control and annotate your live AVer document camera image with your favorite interactive software!**

inspire me to experience wireless presentation!

AVerVision **W30**

Introducing the **world's first wireless document camera with smooth 30 fps video!** This revolutionary mobile device cuts the wires and unleashes the learning environment from a teacher's desk to the classroom and beyond. The W30 includes a lightweight and portable document camera that communicates seamlessly with its base unit to display clear, crisp and consistent content. Now you can share so much more, from large science experiments to fragile art projects from anywhere in the room!

inspire me to annotate without a computer!

AVerVision **F50**

Our teachers always said, "Keep it simple." Our new F50 document camera makes it easy for you to annotate on your document camera images by eliminating the need for separate annotation software. **Simply plug in an AVerPen or a mouse and annotate directly from the document camera itself, without a computer.** It's a solution that lets you keep your lesson plan going without interrupting it to turn on your computer and start extra software.

inspire
me to capture amazing content!

AverVision **M50**

Delivering premium performance, high quality components and ease of use, **the M50 is built for the teacher that loves to capture videos of everything!** This powerful mechanical arm document camera provides unmatched 5 MP image quality along with one touch onboard video and audio recording – straight to a USB flash drive or SD Card. Record your lessons and post them to the web so students never miss a moment!

inspire
me to incorporate a document camera!

AverVision **U10**

The new budget-friendly U10 not only delivers a great price, but comes with better-than-standard features including **smooth 30 fps HD video, video/audio recording with a built-in microphone and seamless integration with Skype™** and a host of other video conferencing software. Now teachers can easily record directly into the included AVer+ software with annotation and sound, making it an easy way to integrate document camera images into your digital curriculum content.

inspire me to teach anywhere with digital lessons!

The New AVerPen & AVer+

The New AVerPen solution eliminates the need for a board or slate and literally puts learning in the hands of the students. **Designed ergonomically and for extreme precision**, the New AVerPen allows you and up to six students to simultaneously write on any live AVer document camera image. Add AVer's popular AVer+ software and now you have even more tools to make your lessons a seamless teaching and collaboration experience.

inspire me to see learning with video conferencing!

AVer H series

Transform your classroom environment with AVer video conferencing! These H.323 HD solutions are competitively priced, include loads of features and are e-rate approved! They are also the only systems that come with a 2-year standard warranty that includes one year of AVerCPR hot-swap and free 2-way shipping. Combine it all together, and you'll see why AVer video conferencing is **Affordable. Reliable. Yours.**

AverVision **SPB350+**

Who says you can't be big and nimble at the same time? Our SPB350+ platform document camera thinks big, combining top features and an integrated 4"x5" lightbox that lets you light up objects like slides or negatives. Yet it's agile enough to maneuver its way to **a surprisingly low MSRP of \$999**. All the premium features and stability you expect from a platform document camera, but without the premium price.
