AVerVision U15

Simply All "U" Need

The Revolutionary
A+ Interactive Software 2 Included!
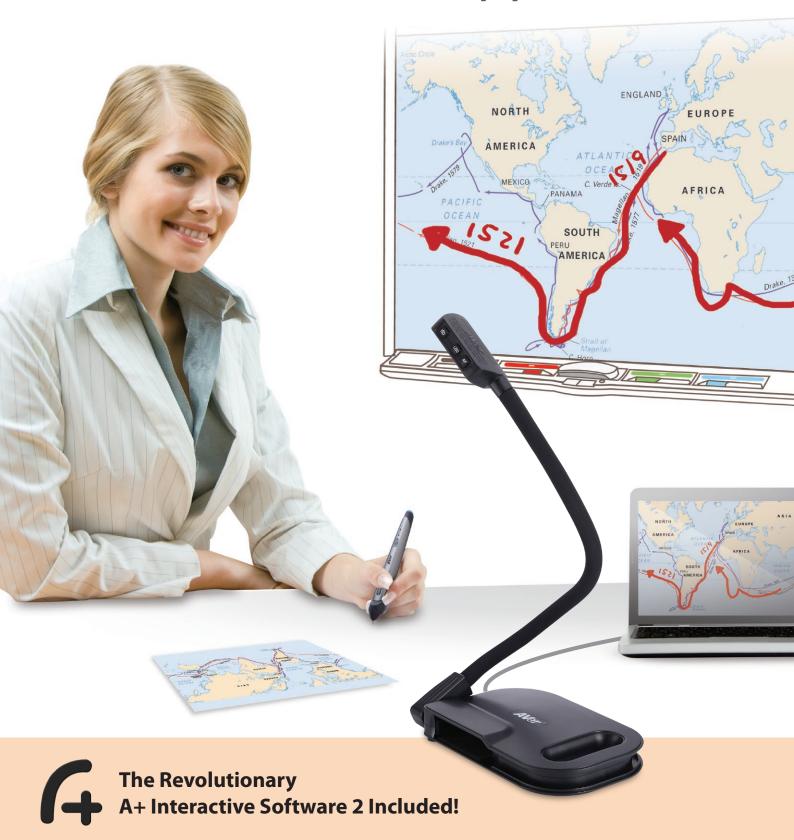

AVerVision
U15

One of a Kind Design

The lightweight, compact AVerVision U15 Visualizer is perfect for schools seeking a simple, well-equipped and user-friendly digital presentation solution. The U series features exceptional portability with a neck and camera head that effortlessly lock into place, a built-in handle for easy toting and the ability to run solely off power from the computer. The lag-free 30fps frame rate, 2-megapixel CMOS camera sensor, HD1080p output resolution and built-in microphone make it an ideal choice for use during video chats. The U15 offers quick and easy connection with interactive whiteboards (IWBs) using the AVerVision Flash Plug-in; and, with the A+ Interactive Software 2, users can capture excellent images from the visualizer, record live video and audio, annotate and much more.

Video Chat
Take advantage of the quality 2M camera and built in MIC to video chat using programs like Skype

30fps
Show smooth, blur-free live video at HD1080p output resolution without experiencing any lag

Compact & Portable
Take U15 anywhere you need to go thanks to its built-in handle and lightweight, compact design
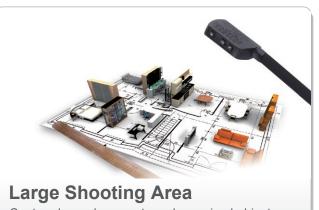

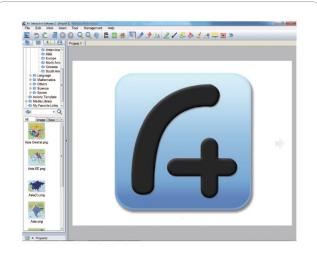

Instantaneous Auto Focus
Watch the image turn crystal clear in almost no time at all

Seamless Integration

Use the 3 built-in USB ports to connect with your PC, IWB, AVer's interactive pen or a mouse

Large Shooting Area

Capture large documents and oversized objects easily with the wide shooting area

A+ Interactive Software 2

· Record excellent video with live audio and capture high-quality images of what's being shown via the visualizer

· Remix and create content from a visualizer, a computer, the Internet and user-created material to provide a rich learning experience

· Annotate, draw, mark or type text over live images from a visualizer using a variety of helpful teaching tools

· Never be at a loss for teaching materials with the extensive Resource Library
