AVerVision® CP355

Seeing is believing!

Examine the smallest details of your documents, 3D objects, and live movements with the AVerVision® CP355's optical zoom. Open up a world of new presentation possibilities with the revolutionary AVer+ software by pooling content from your computer files or the internet, creating content with the software, or using images from the visualizer.

3.2M Sensor

Clear Image Quality

3.2-megapixel camera sensor captures vivid images of documents, 3D objects, and live movements.
10X

Zoom Zoom Zoom!

Use the exclusive shuttle wheel to swiftly magnify the smallest details with the AVer® Optical zoom up to 10X.
Laser Guide

Accurately place any object under the camera using the patented laser positioning guide.

Wide Angle Mode

Ample shooting area to display A4-sized documents in portrait format.

A4 Size

Immediately Grab Attention!

Automatic

Deliver clear images in any light condition with the one-touch Auto Image. Sharpen images with the one-touch Auto Focus.

No Lag

24fps delivers smooth real-time video feed such as instructional demonstrations.

HOT!

All-New Revolutionary AVer+ Software

· Leverage content from an AVerVision visualizer, a computer, the internet, and user-created material to provide a rich learning experience

· Organize your teaching material on multiple project pages with unlimited page space for intuitive learning

· Write, draw, or type text on top of any material you have chosen to use

· Record and share your favorite teachings and your students' work

With a visualizer, you can display...
