Product Description

The AVerVision SPB350 is a high quality, yet affordable visualizer designed for budget conscious users who still require abundant features and functions. Featuring High Definition 1080p Output Resolution, users are able to take advantage of the clarity of HD monitors and projectors 20X AVerOptical Zoom combines of 8X Optical Zoom with 2.5X AVERZOOM, providing 20X Optical Zoom quality while maintaining the ability to pan. Included 8X digital zoom offers a total zoom magnification of 160X. Included software provides the ability to annotate, capture images, record video with audio, and control the features and functions of the visualizer. Images can be captured to the

document camera itself, an SD card, or directly to a PC or MAC. The built-in 4" x 3" lightbox allows for the display of slides, negatives, or other transparent documents. The AVerVision SPB350 is a perfect high-value visualizer solution for virtually any display application.

Feature Highlights

5 MP HD ready 1080p output resolution

able to output High Definition 1080p resolution, images are crystal clear and sharp, especially when projecting through an HD projector or monitor
