

Data Sheet

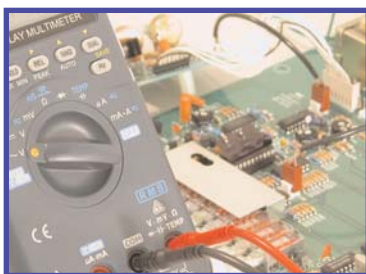

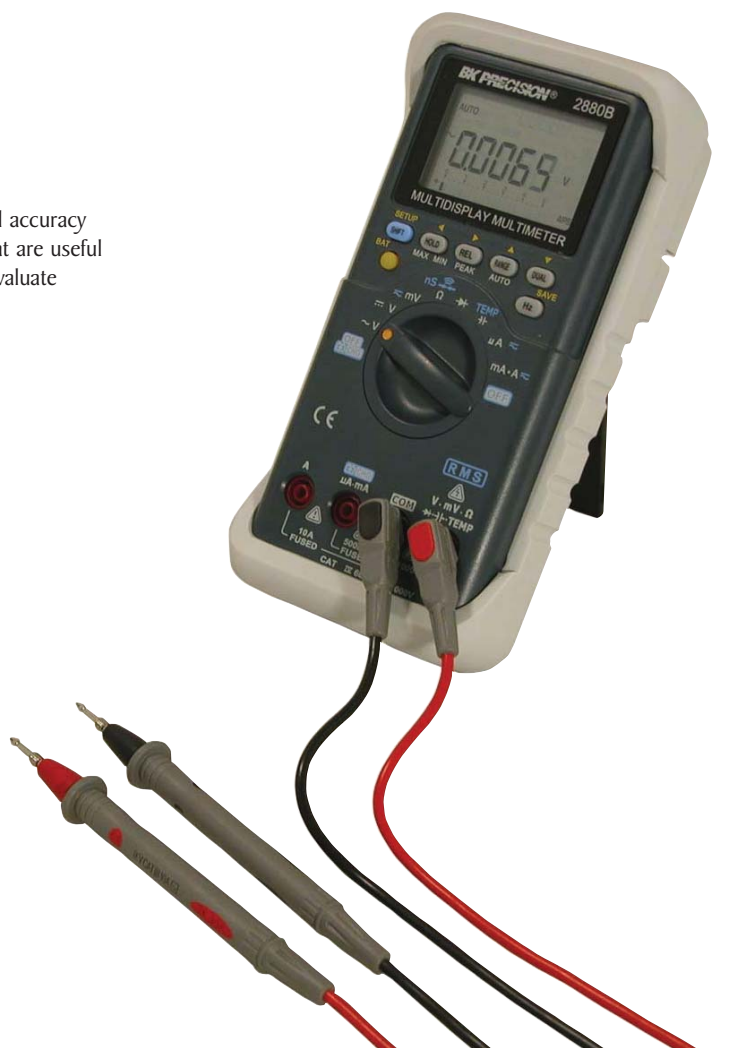

Model 2880B

Dual Display 51,000 Count DMM

The 2880B is a Dual Display 51,000 Count DMMs with exceptional accuracy and functionality. It offers superb performance with many features that are useful for trouble shooting electronic and electrical circuits or to test and evaluate circuits in a field service application.

Features:

- True RMSACV and ACA
- 5 Digit LCD for both the primary and secondary displays
- 21 Segment analog bar graph
- Automatic polarity indicator
- 0.025% basic DCV accuracy (0.03% for 2880B)
- Resistance measurements up to 500Mohm
- Conductance measurements up to 50nS with 0.01nS resolution
- Capacitance measurement
- Frequency with ACV measurement
- Data hold
- dBm Measurement
- REL Mode
- 1ms peak hold for glitch capture
- Conforms to IEC-1010-1 600V CAT III and 1000V CAT II
- CE Approved
