Fyrite® Tech

Residential Combustion Analyzer

AFFORDABLE

Some service technicians may shy away from electronic combustion analyzers due to cost. The Fyrite® Tech was not only designed to provide "The Measurable Difference," it was priced to be the most affordable electronic analyzer currently on the market.

BUILT TO LAST

Based on the winning technology of the Fyrite® Pro, the Fyrite® Tech analyzers are built to handle natural gas, oil, propane and kerosene. Four alkaline batteries typically offer up to 18 hours of continuous operation with an automatic "power off" feature that saves energy. User-friendly filter replacements also make maintenance a breeze.

Easy to Use

With the Fyrite® Tech you are up and ready to test in 3 easy steps:

1. Turn the unit ON
2. Select the fuel
3. Insert the probe
