PAS I Audio System

North America Use Only

- Patented design creates the perfect sound for the perfect presentation in a convenient carry case
- Lightweight and portable
- Connects easily to any projector, portable computer, iPOD, or DVD/VCR player
- Long list of options allow user configuration to specific audiences, source material or rooms
- Satellites can be used independently of the subwoofer as long as separate wall mount or desktop power supply is used (Wall mount power supply (FW-PS12W) and desktop power supply (FW-PS12D) are sold separately)
- Detach speaker satellites from the subwoofer for smaller audiences or ultra portability. Attach the subwoofer for those presentations requiring twice the sound or low-end frequency boost
- Convenient desktop volume control adjusts the sound for both satellites and subwoofer simultaneously
- Hardwired for use in North America and requires a 110 volt outlet for power

PAS I Specifications

Satellites

Drivers
One 2" full range per satellite
One 2.5" passive radiator (PASII)

Frequency Response
100 Hz – 18 kHz @ -10 dB
150 Hz – 17 kHz @ -3 dB

Power
12 watt @ 10%
10 watt @ 1%

Crossover Frequency with Subwoofer
200 Hz

Crossover Frequency without Subwoofer
100 Hz

Subwoofer
