

# Sizzling Summer Special

**PowerVisa**

**PowerGuide**

Dranetz is offering a **HOT** summer special on the PowerVisa and PowerGuide, our two most popular, innovative, and easy to use Power Quality, Demand & Energy monitoring instruments.

### PowerVisa/PowerGuide

- Color, icon based touch screen
- Automated setups for instant detection of circuits and configurations
- Manual Setups to adjust parameters, triggers & recording depth
- Pre-set monitoring modes for easy manual setup for PQ, Energy, Data logging and more
- Color coded annunciator alarm panel for quick identification of PQ & other problems
- Power quality measurements in accordance with industry standards, such as; IEEE 1159, 519, 1453 and IEC 61000-4-30 Class A

### PowerGuide Adds

- 10,000 cycle recording depth
- Monitor long duration motor startups and transformer energization
- Additional monitoring modes for fault recording, inrush and motor analysis
- Intelligent AnswerModule® feature provides consultant-like analysis of:
  - Sag directivity - identifies Sag's as upstream or downstream
  - Capacitor switching transient identification
  - Motor analysis/reporting

When combined with our industry leading Dran-View analysis and report writing software (included), both the PowerGuide and PowerVisa offer best in class Power Quality monitoring and analysis at extremely competitive prices.

PowerVisa Package	List	Special Price	PowerGuide Package	List	Special Price
10A Clamp - DBPV10	\$5,500	\$4,637	10A Clamp - DBPG10PKG	\$8,438	\$6,970
