

DUKANE AirSlate 2

Giving you the freedom to interact!

The *AirSlate 2* is a wireless annotation and mouse control pad that gives the instructor maximum interaction with their audience by allowing the freedom to roam around the room while giving a presentation.

The *AirSlate 2* by Dukane communicates with the computer through a wireless Bluetooth interface. It operates with a computer which has a built-in Bluetooth or via a small Bluetooth receiver (dongle) plugged into a USB port. *AirSlate 2* allows you to navigate your computer while roaming the conference room or classroom. Presenters and teachers no longer need to stay rooted to one place – behind a lectern or in front of the class. *AirSlate 2* breaks the chains with innovative Bluetooth technology. Cable-free mobility is yours!

Twelve unique customizable macrokeys that are located across the top of the tablet allow instant access to web sites, programs (annotation, MS Word, MS Excell, etc.) and other applications. Included programs use pencil, brush pen, and highlight color markers for annotations. The software includes three programs for annotation and drawing at various levels.

Also included is educational software called Easiteach.™ It is an educational program which is easily controlled by this interactive slate. It helps students master subjects by creating extremely engaging lessons.

The software also includes a library of clip art images and backgrounds that can be easily dragged onto the active window. Interactive games and lessons provide a fast and simple way for a teacher to work with students.

You can enjoy a higher level of interaction with your class while delivering more captivating presentations or lessons with the *AirSlate 2*.

- Precise and lightweight cordless pen provides all the necessary mouse functions.
- Live annotation over presentations, programs, documents and web pages.
- Clip art library and backgrounds combined with instructional software program.
- Software to easily capture or expand your ideas.
- Applicable to all Microsoft Office programs including PowerPoint, Excel and Word.
- Twelve Macro Keys
- One Year Warranty
- Runs on Windows® and MAC®

RM Easiteach

DUKANE

AirSlate 2 Benefits

- Maximum interaction with students or audience because the teacher/presenter can move to any room location and still conduct the lesson or presentation
- Permits students, while still remaining seated to enter their ideas or answers on the board before the entire room.
- Cost effective alternative to an interactive whiteboard
- Up to seven AirSlate 2s can be used with one computer

AirSlate 2 Carton Contents:

AirSlate 2 Bluetooth tablet
 Cordless pressure-sensitive pen
 Bluetooth dongle
 USB cable
 4 AA rechargeable batteries
 Battery recharger for 4 x AA/AAA
 1 AAA battery for pen
 Installation and driver CD-ROM, including Easiteach software
 Bluetooth adapter driver for Windows 2000, XP, and Mac.

Minimum System Requirements:

Windows 2000, XP
 Pentium 300 MHz (or equivalent) processor or higher
 128MB of RAM
 CD ROM drive
 One free USB Port

Other Application

Great addition to any interactive whiteboard giving the audience more options to be actively involved.
