

Humidity and Temperature Meter

Built in sensors, °C to °F switchable with Recorder Output

Features:

- Utilizes thin film capacitance sensor for humidity measurements to 3% over a 10-95.0%
- Semiconductor sensor for temperature measurements of -20 to 60°C and -4 to 140°F
- Accuracies of 3% RH, 0.8°C, 1.5°F
- Fast response in less than 3 minutes.
- Sampling rate 2.5 times/second
- 10mV/1%RH, 1°C or 1°F output signal for use with a chart recorder
- Large 3-1/2 digit LCD display
- Data Hold function
- Dimensions: 10.6x2.7x1.0" (272x69x26mm)
- Weight: 7oz. (198g)
- Complete with carrying case and 9V battery

CE
