

Photo Tachometers

Choice of built-in Laser model for accurate measurements at long distances

Features:

- Large 5 digit LCD display is easy to read
- Built-in memory recalls Last/Max/Min value stored
- Autoranging with 0.05% accuracy
- Use reflective marker on object to be measured and point the integral light beam or accurate readings updated every second
- Complete with 23" reflective tape, four AA batteries and case

Additional features (461923):

- Laser light source for accurate measurements at long distances
- Non-contact measurements from 10 to 100,000rpm
- Up to 6.5 feet (2 meters) measurement distance (depending on ambient light)
- Dimensions: 7.5x2.8x1.5" (190x72x37mm); Weight: 8.8oz (250g)

Additional features (461893):

- Non-contact measurements from 5 to 99,999rpm
- 2 to 6 inches (50 to 150mm) measurement distance (depending on ambient light)
- Dimensions: 6.7x2.8x1.5" (170x27x37mm); Weight: 8.8oz (250g)
