PRODUCT BULLETIN

Bulletin No: PB325

Issue Date: 12-16-2011

Available: 1-18-2012

Product Description:

Hakko FX-601 Soldering Iron

Part No:

FX601-02, FX601-02/P, T19-xx Series Tips

Specification:

Soldering Iron Specifications	
Model	FX-601
Part No.	FX601-02
Power Consumption	67W 120VAC
Tip-to-Ground	< 2 Ω
Leak Voltage	< 2 mV
Temp Range	240-540°C (464-1004°F)
Temp Accuracy	±10°C (±18°F)
Temp Stability	±1.0°C (±1.8°F)
Heater Type	Ceramic
Length (w/o cord)	235 mm (9.25 in.) w/T19-D5 Tip
Weight (w/o cord)	68 g (0.1 lb)
Reach	1.8 m (6.0 ft)
Tips	T19 Series
Standard Tip	T19-D5
Shipping Size	273 x 114 x 38 mm (10.75 x 4.5 x 1.5 in)
Shipping Weight	254 g (0.56 lb)
Safety Approval	

Comment:

The Hakko FX-601 Soldering Iron is the next generation handheld soldering iron. This compact and lightweight soldering iron has an improved ergonomic design and low weight to fit comfortably in your hand while providing excellent thermal performance.

The soldering iron also features a convenient temperature adjustment dial in the handpiece that allows the user to select their optimal soldering temperature, and the advanced electronic controls and efficient ceramic heater provide accuracy and stability that rival older Hakko stick irons.

The Hakko FX-601 also features a longer power cord for better reach with the iron and includes a temperature adjustment tool that can be used to 'adjust and lock' the selected temperature of the iron if necessary by removing the adjustment dial.

The new T19 Series Tips are built using the same performance optimizations as the T18 Series Tips but are a higher mass for improved performance.
