**Product:**

Adjustable Boom Stand for FR-800 series hot air tools

**Part No:**

999-224

**Comments:**

The adjustable boom stand supports the Hakko FR-800 series (FR-801, FR-802, and FR-803) hand piece. With a 560mm (22 in.) reach the boom stand is a perfect accessory when using the FR-1012 IR Preheater. The Boom Stand provides smooth movement with 50mm (2 in.) of fine vertical adjustment and over 305mm (12 in.) of fast vertical movement. The Adjustable Boom Stand used in conjunction with a FR-800 Series Hot Air Station and FR-1012 IR Preheater will provide a complete SMD rework system. The handles for the 850/852 series Hot Air Systems can also be used with the Adjustable Boom Stand.

Adjustable boom stand shown with optional FR-1012 IR Preheater and FR-803 Hot Air Station.
