Present. Annotate. Collaborate.

mondopad

Giant Touch Tablet for Your Conference Room

Present, annotate and collaborate on a giant tablet with meeting participants in the room and around the world.

An InFocus® Mondopad™ puts everything you need to visually present, capture and share ideas at your fingertips – all beautifully integrated into a single device.

The Mondopad combines the power and flexibility of an all-in-one PC with a giant touch display in an elegant and cost effective package. Mondopad is built around industry standards and leading technologies.

Key Features

- Multi-touch high definition 55 inch display
- Flexible and expandable with built-in Windows PC
- Digital interactive whiteboard and document annotation
- Business-class video conferencing
- Share, view and control from your tablet or smartphone
- Full copy of Microsoft® Office ensures file compatibility

Designed for Multi-touch

Mondopad's natural touch interface changes the way people interact with information, collaborate and connect. Meetings are more engaging, content is more immersive, and audiences are more engaged.

The included MondoControl software makes full use of the Mondopad's multi-touch capabilities to simplify and optimize all of its presentation, annotation and collaboration applications.

Video Connect to the World

If you use a video conferencing system, Mondopad can fit right in. You can add it as a SIP endpoint on your video conference server or service. You can also install the desktop client onto Mondopad for your existing video conferencing system, just like you would a PC.

If you don't have a video conferencing system, we have an affordable video conferencing solution from Vidtel.

Using the latest applications for collaboration is as easy as downloading an app. Industry standard collaboration tools like GoToMeeting®, WebEx™, Microsoft Lync™ and Adobe® Connect™ run seamlessly on a Mondopad.

Upgrade Your Conference Room

The Mondopad combines the power and flexibility of an all-in-one PC with a giant touch display in an elegant and cost effective package. And, it's expandable to meet your requirements.

Mondopad is built around industry standards and leading technologies from Intel and Microsoft, so upgrading to the latest software and tools is a breeze. And, IT administrators and managed service providers can securely monitor and manage the Mondopad from anywhere.

Whiteboard Wizard

The Mondopad's whiteboard and collaboration apps make it easy to brainstorm and capture and share the ideas.

- A complete set of writing and drawing tools, pens, highlighters, shapes and lines are at your command
- Whiteboard drawings and notes on your meeting visuals can be collected, saved and emailed to meeting participants right from the Mondopad

Familiar Applications Optimized for Touch

Sharing documents and visuals during a meeting from any device is amazingly easy with the Mondopad's simple and familiar folder structure.

- Add, remove and launch documents from the Mondopad's View/Share folder, which anyone in the meeting can access
- You can also email files directly to the Mondopad
- Use all of the office documents (PowerPoint, Word, Excel, PDF, JPGs and more) that you use every day -- all optimized for touch

Never Lose An Idea

Use the whiteboard's writing and drawing tools to take notes on whatever is being presented on screen. This highly-visual medium allows your teams to communicate more effectively, collaborate in real time, and never lose an idea.

- Circle or highlight key information on PPT slides, spreadsheets, design comps, and more
- Identify information on-screen to help remote participants follow along
- Capture and share the notes with everyone in the meeting right from the Mondopad

Connect, Share, View & Control Content from Any Device

You and your colleagues can securely connect, share and collaborate with anyone, anywhere – making your meetings more collaborative, productive and sustainable.

- Securely connect Mondopad to your network via its built-in WiFi so any authorized user of your network can share, view and control their visuals from their PC, tablet or smartphone
- Mondopad's WiFi also creates a wireless access point so guests in the room can easily deliver documents to the display or access the Internet without connecting to the organization's private network
- Remote participants see what's on the Mondopad via a web page served by the Mondopad

“The Mondopad's aim is to drain the boring out of business meetings.”
