

## InFocus Mondopad Virtual Training

*The quickest way to get BIG results from your Mondopad*

Gain valuable knowledge about your Mondopad and how to get the most from it in our specialized virtual training.

Choose between a 2-hour (INF-VT2) or 4-hour (INF-VT4) virtual training session for your team. You can even break a 4-hour session into two 2-hour sessions – repeat the same session to two sets of people or customize each 2-hour session based on the audience, such as for users and administrators.

### Topics that give you the results you want

We offer a complete list of valuable training topics for both users and administrators that you can choose from.

Several of the topics below can be included on one 2-hour or 4-hour session, so you can design a course with only the topics you need. Virtual trainings are conducted via GoToMeeting.

### Comprehensive Mondopad Overview

Get familiar with all the tools Mondopad brings to the office and conference room in this overview of Mondopad, the hardware, shell, and features.

### Your Content, Your Mondopad

Learn how to display content via basic connectivity like a VGA or HDMI cable or USB stick, to upload content from your laptop or iPhone, and to use the Mondopad application, Present2, to display your laptop screen.

### Successful Video Conferencing Presentations with Mondopad

Discover Mondopad tools that let you easily conduct a video call, present information, and collaborate at a whole new level. Show a presentation on your screen, deliver your message, and get business done.

### Whiteboard Sharing

Learn how to collaborate in real time by using Mondopad's interactive whiteboard or by linking multiple Mondopad whiteboards. Create action plans, mark up a document, and share ideas that move your business forward.

### Manage Your Mondopad on Your IT Infrastructure

Understand how to integrate Mondopad into your IT infrastructure to create a complete solution for your collaboration space.

### Deploying Video Conferencing

Find out how to use Mondopad's video network to make video calls that accelerate decision making and collaboration.

### Making Video Calls

Enable video in your organization by learning how to use Mondopad with the many different video conferencing devices available and the protocols that go with them.

### Video Conferencing Etiquette

Uncover the dos and don'ts of video conferencing, then use what you've learned to conduct energizing online meetings.

### Presenting 101

Free yourself from Powerpoint and use Mondopad to take interactive presentations to a new level. Pull content from many sources on the fly and keep your audience fully engaged.

### Mondopad Interactive Whiteboard

Find out how to use Mondopad's interactive whiteboard to collaborate with colleagues and organize thoughts and ideas. Familiarize yourself with pen types, colors, shapes, backgrounds, annotations, and many other tools.

### Working with 3rd Party Applications

Discover how to install third-party applications and integrate them into Mondopad to make it an even more flexible tool for your conference room or classroom.
