

Your little helper.

Lock'n'Charge Technologies

The iQ Traveler 20™ is equipped with everything you need to sync, charge and transport up to 20 iPad® devices.

iQ Traveler 20
Pelican™ Storm Case™

Features and Benefits

Mobility just got easier. The iQ Traveler 20 is a rugged case on wheels designed to transport up to 20 iPad devices.

Sync up to 16 iPad devices at once or up to 20 in rotation! Using iTunes® on your MacBook® and the iQ 16 Sync Charge Box™, you can sync up to 16 iPad devices simultaneously, or up to 20 in rotation with all your favorite apps, books, movies, podcasts and music.*

Free up time, people and infrastructure. Charge 16 iPad devices at once, or up to 20 in rotation from one socket. The iQ Traveler 20 is equipped with a removable iQ 16 Sync Charge Box that charges your set of iPad devices at the 2.1 amp rate, meaning that you can fully charge 16 iPad devices in approximately the same time it would take to charge one.**

Cushioned and protected. The iPad devices are stored in foam slots to prevent them from being damaged in transit. This means less cracked screens and more functioning iPad devices ready to use when you need them.

The perfect balance. The iQ Traveler 20 is a custom built Pelican Storm Case that is both light and strong at the same time. You can store up to 20 iPad devices (with or without Smart Covers), the iQ 16 Sync Charge Box and all your connector cables.

The iQ Traveler 20 is compact in design so that you can store it under a desk or somewhere out of sight.
