

KFM MAGNIFIER

The KFM Series is the world's number one magnification system. It is the most widely used magnification system and offers the greatest selection of primary and secondary lenses of any illuminated magnification series. Backed by more options and quality features than any other magnifier, the KFM Series is well equipped to handle virtually any magnifying challenge. And now, with new enhancements, KFM magnifiers are even more powerful and convenient to use.

Features:

- **Instant-On Switch.** Just a touch of a switch ignites the fluorescent tube instantly and creates a "flicker-free" light that eliminates the stroboscopic effect on machinery such as a lathe or drill press.
- **Adjustable Neck.** The magnifier head moves vertically and horizontally to provide total flexibility.
- **Minimum Clearance Bracket.** The new AH bracket allows for almost zero clearance (Approx. 1/4" clearance) between adjacent benches. It also provides more freedom of movement by raising the swivel point of the magnifier 2" higher above the bench surface. Its increased "jaw" size permits it to be clamped to surfaces up to 2 3/4" thick.
- **Die-Cast Aluminum Housing.** 5" diameter lenses are mounted in an aluminum housing that is non-corrosive and durable. The inside is finished in white to optimize and evenly distribute light.
- **Multi Lens Capability.** The KFM Series offers a wider range of distortion-free magnification lenses than any other magnifier.
- **Selection of Primary and Secondary Lenses.** All lenses can be changed or removed easily. With a range of factory-installed 3-, 5- or 10-diopter lenses, the KFM Series can handle any intricate magnification task.
- **Patented Internal Spring Arm.** A 30" or 45" K-arm offers an infinite number of adjustable positions. Once adjusted, perfect balance is maintained by tempered steel springs.
- **22-Watt Energy-Efficient Tube.** Protected by a heavy-duty clear diffuser, the tube provides cool, shadow-free light on any work surface.
- **No RFI Noise.** The most significant benefit is the adoption of an internal Electronic Ballast System which includes an RFI filter.
- **15% more light output.** A major benefit of the new electronic ballast is its improved efficiency.
- **UL/CUL listed.**
- **The KFM Series magnifiers are backed by a 5 year warranty.**

ACCESSORY LENSES (FIT ALL KFM MODELS)

50201

4-DIOPTER LENS

(adds 1X to magnification of primary lens)

50202

8-DIOPTER LENS

(adds 2X to magnification of primary lens)

50206

10-DIOPTER SWING AWAY LENS

(adds 2.5X to magnification of primary lens)

MOUNTING BRACKETS

50020

AH EDGE MOUNT

For mounting products to horizontal surfaces.

2 3/4" opening.

50003

B WALL MOUNT

For mounting to walls or other vertical surfaces.

50005

C SURFACE MOUNT

For direct, permanent mounting to horizontal surfaces.

50036

34" FLOOR STAND

Painted steel pole and cast iron base includes both casters and glides.

ORDERING GUIDE

PART NO.	DESCRIPTION	COLOR	ARM LENGTH	MOUNTING BRACKET
17110*	KFM-1/AH 10D	LG, BK, WT	45"	Edge Mount
17113*	KFM-1/AH 3D	LG, BK, WT	45"	Edge Mount
17115*	KFM-1/AH 5D	LG, BK, WT	45"	Edge Mount
17210*	KFM-2/AH 10D	LG, BK, WT	30"	Edge Mount
17213*	KFM-2/AH 3D	LG, BK, WT	30"	Edge Mount
17215*	KFM-2/AH 5D	LG, BK, WT	30"	Edge Mount
17250*	KFM-2/FE 10D	LG, BK, WT	30"	Base Mount
17253*	KFM-2/FE 3D	LG, BK, WT	30"	Base Mount
17255*	KFM-2/FE 5D	LG, BK, WT	30"	Base Mount
17310BK	KFM-1/AH 10D UV	BK	45"	Edge Mount
17313BK	KFM-1/AH 3D UV	BK	45"	Edge Mount
17315BK	KFM-1/AH 5D UV	BK	45"	Edge Mount
