PLT200 shown with optical sensor and TTL output cable

PLT200 and PT99 have a 1/4 20 threaded bushing for tripod mounting

The rugged and versatile Pocket Laser Tach is ideally suited for non-contact, contact and linear speed measurements. For indoor or outdoor applications.

Pocket Laser Tach 200 (PLT200) is a digital, battery-powered portable optical tachometer, which operates up to 25 feet (8 meters) from a reflective target using a class 2 laser light source. The ergonomic design allows safe, direct line-of-sight viewing of both the target and the display at the same time, while providing a non-slip rubber surface for single hand operation.

Multi-Function For Pro-Active Maintenance

PLT200 is a 32 function Tachometer/Ratemeter, Totalizer/Counter and Timer (stopwatch), which is programmable in both Imperial and Metric rates. Includes two phono plug connectors for our optional Remote Contact Assembly (RCA) or remote sensors. The PLT200 also has a TTL compatible pulse output to trigger devices like vibration data collectors or stroboscopes. The KIT is supplied complete with a Remote Contact Assembly including concave and convex tips and a 10 cm linear speed wheel all in a latching carrying case.

> Pocket Laser Tach 200 Kit includes: Tachometer, RCA, Contact Tips, 10cm Linear Contact Wheel, 5 feet of Reflective Tape and a Latching Carrying Case.

PORTABLE TACHOMETERS (Non-Contact with Pistol Grip) Phasar-Laser Tach Series

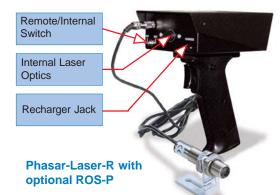

NIST CE

Phasar-Laser combines the accuracy and safety of a non-contact optical tachometer with the convenience and ease of operation of a pistol grip instrument, housed in a rugged steel enclosure. The tachometer provides a convenient visible red laser for easy targeting along with a latching trigger for hand held operation and a mounting bushing for tripod mounted use.

Phasar-Laser-R provides for an optional remote sensor for difficult to reach locations in addition to the standard internal measurement optics.

Features

- Convenient pistol grip design
- Rugged steel enclosure
- Safe non-contact operation to 10 feet (3 m) and 45 degrees from reflective tape
- On-target and low battery indicators
- · Last measurement memory

Nova-Strobe bax 115 Stroboscope, AC powered Nova-Strobe bax 230 Stroboscope, AC powered Nova-Strobe dax 230 Stroboscope, AC powered Nova-Strobe bbx 115/230 Stroboscope, battery recharger (USA, UK, AUS, EURO plug) (USA, UK, AUS, EURO plugs) Also available in Kit form including; Stroboscope Recharger, spare lamp and carrying case.

Nova-Strobe x - The standard for high intensity multi-function portable stroboscopes. Models are available with digital displays, battery or AC power, and a useful range of features which provide unmatched performance and value. Four models range from the Nova-Strobe dbx Deluxe, the most versatile battery powered digital stroboscope with internal phase shifting, down to the Nova-Strobe bax Basic, the most cost effective AC powered digital stroboscope.

Both the battery powered Nova-Strobe dbx and AC powered Nova-Strobe dax provide a range of 30 to 20,0000 flashes per minute and an accuracy of ± 0.002 of setting. Flash rates are easily adjusted to fractional RPM by a coarse/fine control knob. Individual TTL compatible input and output jacks are provided for 'daisy chaining' of multiple strobes, triggering from an external source, or providing a trigger signal to external equipment.

Both dbx and dax provide internal phase shifting to keep the target precisely in view. Both provide x2 and \div 2 capability for distinguishing actual RPM from harmonic frequencies. In addition, 9 user presetable memory flash rates for repetitive measurements and storage of the last flash rate measured are included.

Features All Nova-Strobes, Deluxe and Basic:

- Deluxe • Internal rechargeable batteries or AC powered models
- Weighs less than 2.0 Lbs. for easy handling
- More than 20% brighter Xenon light than competitors
- · Electronic switching provides continuous cool operation
 - Tripod mounting bushing in handle
 - Low battery indicator (for battery powered models)

In addition, Nova-Strobe dbx and dax Plus models have:

- N.I.S.T. Traceable Certificate of Calibration included
- Internal phase shifting for easy reference target viewing
- Tachometer mode, speed measurement up to 250,000 RPM
- Power for optional sensors

TTL compatible input/output 1/8" (3.5mm) phone plugs

Phaser-Strobe pbx

Rohs NIST (E

The **Phaser-Strobe pbx** incorporates the unique design features of the Nova-Strobe dbx with an increased operating range of 30 to 50,000 flashes per minute, as well as external phase shifting. The unique digital adjustment knob can select the decade for adjustments, so coarse and fine adjustments of flash rates are made quickly and with significantly better resolution than competitive units. The memory feature of the **Phaser-Strobe pbx** allows nine flash rates to be stored - displayed in flashes per minute or flashes per second. **Phaser-Strobe pbx** operates with internal rechargeable batteries or continuously from AC line power with the power supply/recharger.

- Features:
 - N.I.S.T. Traceable Certificate of Calibration included
 - \bullet Phase Shift adjustable as phase angle or time with resolution to 0.01° and 0.01 msec
 - Virtual RPM mode provides slow motion viewing for high speed events
 - Backlit alphanumeric LCD shows flash rate, degrees, time
 - Store and recall nine memory settings
 - TTL compatible input/output jacks, power for optional sensors
 - Tachometer mode from Remote Sensors (see page 9)

PORTABLE STROBOSCOPES (for use with Vibration Data Collectors)

Vibration-Strobe vbx

Rohs NIST (E

The **vbx vibration strobe** is uniquely designed to provide precise, instantaneous synchronization to a number of data collectors and FFT Analyzers triggered by an accelerometer. Built for portable applications, the **vbx** is the perfect lightweight phase analysis tool. **vbx** allows for the measurement of phase without stopping the machinery to install reflective tape. Phase analysis is quick and accurate using the Filter Bandwidth Selector and the Relative Phase Adjustment. Unique "Tracking Filter" maintains phase lock to input pulse. **vbx** can power and be triggered by accelerometers with or without data collectors.

Kit includes: Strobe, accelerometer interface cable, universal p.s./recharger, spare lamp in carry case.

VIBRATION METER AND TRENDING SOFTWARE Examiner 1000 and OnTime Software

The **Examiner 1000** overall vibration meter and electronic stethoscope is the ideal tool for costeffective predictive maintenance. This meter is simple to operate with only one button and volume adjustment. Troubleshoot bearings and lubrication with the digital LCD and stethoscope features to enhance machinery reliability. Compare your vibration results by using the ISO 10816 Severity Chart right on the meter. **N.I.S.T. traceable calibration is available.**

Features:

- Electronic Stethoscope-troubleshoot while listening to the bearing
- Measure vibration in:

Acceleration- perfect for high-speed applications Velocity- in English or Metric per ISO 10816 Acceleration Envelope-high-pass filter method

SPECIFICATIONS		EXAMINER 1000

Weight		2.85 lbs (1.30 kg)		

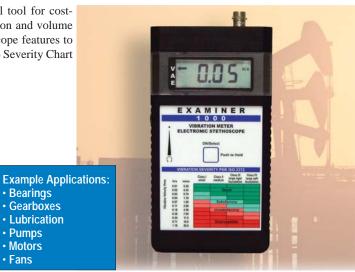

OnTime Trending Software is a simple-to-use, graphical program designed for condition-based maintenance through the routine trending of vibration and process information. Trending is the best method to judge the dynamic operating conditions of your machinery. **OnTime** helps you to manage all key machinery operating conditions.

Trend:

- overall vibration readings
- temperature
- speed
- process measurements of any type

OnTime is easy to set-up. Building the user-defined database of collection points is simple and intuitive. Construct entire Plants with complex machines and data collection points in minutes. Cut, paste, copy and edit-all the familiar windows features are here.

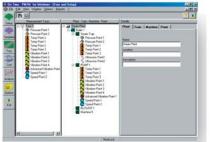

OnTime graphically displays automatically built trends of the data entered. User defined alarms are set and if violated, an immediate visual alarm is displayed in the software. This allows for instant identification of machines which require corrective action. Compare any type of data.

Examiner 1000

PANEL TACHOMETERS / TOTALIZERS / RATE METERS

ACT Series

MONARCH J23945 SET RESET & RECALL

ACT-3X Panel Tachometer/Ratemeter/Totalizer

The ACT Series consists of two models - one tachometer and one tachometer/ratemeter/totalizer. Both feature universal inputs for two and three wire sensors providing signals of 0-5V TTL or 0-1.1Vac to 0-50 Vac. Both models operate from all Monarch sensors (see Page 9) and display in fixed or floating decimal point format. The ACT-3X dual channel input provides the best feature set of any panel or bench top instrument available today.

Features:

- ACT-1B (5-99,999 RPM) • Economically priced
- Economically priced
- or TTL pulse

ACT-3X (5-999,990 RPM)

- N.I.S.T. Traceable Certificate of Calibration included
- Output options: 4-20 mA, 0-5 Vdc Standard TTL pulse repeater output
 - Optional 4-20mA, 0-5Vdc, and 2 alarm outputs
 - Optional Serial, USB or Ethernet communications
 - Single event speed capture from start and stop pulses, in units such as mph, cm/sec, etc. Using two sensors for linear rate of travel on second input channel.

PM Remote Software

Both the ACT-1B and the ACT-3X can be used with the Windows based PM Remote Software to further enhance their capabilities. Use your PC to customize the configuration of the ACT-1B and ACT-3X or view real-time data over the communications interface. Live data can also be streamed directly into Microsoft ExcelTM. PM Remote Software is included with the optional USB Programming Cable for the ACT-1B and the ACT-3X (with standard serial option) and is included with the ACT-3X when ordered with RS232C serial, USB or Ethernet communication options.

PM Remote Software and USB Programming Cable: for use with ACT-1B and ACT-3X (with standard 3.5mm

Specifications	ACT-1B	ACT-3X					
Speed Range	5-99,999 RPM	5-999,990 RPM (Speeds below 5 RPM possible with multiple					
		pulses/revolution)					
Accuracy	±1 RPM or 0.005% of reading	±0.001% of reading or ±1 of displayed value (standard gate)					
		±0.006% of reading or ±1 of displayed value (fast gate).					
Resolution	1 RPM	Up to 0.001RPM, 10 RPM (100,000 to 999,990 RPM).					
Totalizer/Counter	N/A	Display Range: 0.001 to 99,999					
Input Configuration	Universal inputs for all Monarch	Sensors or TTL input or 1.5 to 50Vac input.					
Alarm Output	N/A 2 Form C relay contacts rated 1A at 230 Vac, can be set as failsafe.						
Alarm Capability	y N/A Two alarm setpoints: set as High or Low, latching or non-latching						
	Hysteresis and low limit lockout are programmable.						
Analog Output	Voltage (AO): 0 to 5Vdc, 5mA max load or Current (IO): 4-20mA (500 ohms max). 1-5Vdc with 250 ohm resistor.						
Pulse Repeater	0-5V TTL compatible. C	ne pulse out for each pulse in.					
Communications	Optional (3.5mm phono plug)	Standard (3.5mm phono plug), Optional RS232C, USB type B, or Ethernet					
Scale Factor	N/A	0.0001-9999.9					
Totalize/Count	N/A 1-99,999						
Display	5 digits, 0.56" (14 mm) high red LED						
Display Update	2x per second above 120 RPM						
Dimensions	1/8 DIN by 4.5" (114 mm) deep						
Input Power	Standard: 100-240Vac, 50/60Hz Optional: 12 or 24 Vdc ±20%, Isolated 5 Watts.						
Sensor Power	5Vdc or 12Vdc or optional 24Vdc to sensor

SENSORS

for Tachometers & Stroboscopes or stand alone use

ROS (**Remote Optical Sensor**): Threaded stainless steel remote optical sensors have a visible red LED light source and green LED 'On Target' indicator. Performs over a wide speed range and operating envelope.

Common usage: Wide range of general purpose applications in relatively clean environments.

IRS-W or IRS-P: Ideal sensor for working up to 0.5" (12 mm) from high speed equipment or other applications providing only contrasting light and dark surfaces or beam interruption by solid objects as small as 0.30" (1mm).

Common usage: Dentist and other high speed drills, slots or gear teeth. Does not require reflective tape. Use black/white CAD drawing.

CE CE					
Operating	0.5"				
Distance	(12 mm)				
Speed Range	1-999,990 RPM				
Operating	-10° to 212°F				
Temperature	(-23° to 100°C)				
Power Required	3.3 to 15 Vdc				
Output Signal	TTL Same as Source				
Standard Cable	8 Feet (2.4 m)				
Dimensions	2.9" (L) x 0.625" diameter				
	(73 x 16mm)				

GE-200HP: Ideal sensor for detecting gasoline engine RPM. Up to 12 inch (304 mm) working distance from ignition coil or magneto. **Common usage:** 2-cycle and 4-cycle gasoline/ petrol engines.

Operating	Up to 12 inches
Distance	(304mm)
Speed Range	200-30,000 RPM
Operating	0° to 175°F
Temperature	(-18° to 80°C)
Power Required	3.3 to 24 Vdc, 4mA
Output Signal	TTL Same as Source
Standard Cable	15 Feet (4.5 m)
Dimensions	2.16" (L) x 0.82"
	(55 x 21 mm)
	()

ROS-HT (Remote Optical Laser Sensor High

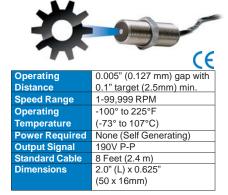

Temp): Threaded stainless steel optical sensor with visible white light source. Ideal for automotive and truck cooling system testing up to 257° F (125° C)

Common usage: Automotive and heavy truck cooling fan speeds.

Operating	2 feet (61 cm) and
Distance	45° offset from target
Speed Range	1-50,000 RPM
Operating	-13° to 257° F
Temperature	-25° to 125° C
Power Required	6-24 Vdc @ 40mA
Output Signal	TTL Same as Source
Standard Cable	25 Feet (7.6 m)
Dimensions	2.9" (L) x 0.625" diameter
	(73 x 16mm)

M-190W or M-190P (Magnetic Sensor): Most popular sensor for use with 60 tooth 20 pitch gears. Sensor mounts within 0.005 inches (0.127 mm) of a minimum 0.1 inch (2.5 mm) target. Requires no power from the display module and self-generates an AC signal.

Common usage: Ferrous metals, primarily gear teeth.

P5-11: A two wire probe style inductive sensor for use up to 0.2 inches (5 mm) from 0.5 inch (12 mm) metallic target such as bolt head or shaft locking key.

Common usage: Permanent installation in harsh industrial environments.

Operating	0.2" (5mm) from
Distance	0.5" (12mm) metallic target
Speed Range	1-60,000 RPM
Operating	-4° to 140° F
Temperature	(-20° to 60° C)
Power Required	7.7 to 9 Vdc, 3mA
Output Signal	Namur (DIN 19 234)
Standard Cable	6 Feet (1.8 m)
Dimensions	1.3" (L) x 0.43"
	(32 x 11 mm)

ROLS (Remote Optical Laser Sensor):

Threaded stainless steel remote optical laser sensors have a visible red laser light source and green LED 'On Target' indicator. Performs over a wide speed range and operating envelope. **Common usage:** Wide range of applications where distance to target is large

+-					
Operating	Up to 25 feet (7.62 m) and				
Distance	60° offset from target				
Speed Range	1-250,000 RPM				
Operating	-40° to 180° F				
Temperature	-40° to 80° C				
Power Required	3.3-15 Vdc @ 35mA				
Output Signal	TTL Same as Source				
Standard Cable	8 Feet (2.4 m)				
Dimensions	3.12" (L) x 0.71"				
	(M16 x 18 x 79.4mm)				

MT-190W or MT-190P (Magnetic Sensor): Amplifier extends operating gap to 0.25 inches (6.35 mm) from the target. Frequently used on gears as the M-190, but can also sense bolt heads or shaft keys and provides a TTL output signal that is equal to the source voltage.

Common usage: Ferrous metals including bolt heads or shaft keys for on-line systems.

*	
Operating	0.25" (6.35mm) gap with
Distance	0.1" target (2.5mm) min.
Speed Range	1-99,999 RPM
Operating	-100° to 225°F
Temperature	(-73° to 107°C)
Power Required	3.3 to 24 Vdc, 4mA
Output Signal	TTL Same as Source
Standard Cable	8 Feet (2.4m)
Dimensions	2.0" (L) x 0.625"
	(50 x 16mm)

PS-12: A three wire threaded IP67 metal sensor outputs an open collector PNP pulse. Operates at a 0.15 inch (4mm) gap with a .45 inch (12mm target. Includes red LED on target indicator. **Common usage:** Permanent installation in harsh industrial environment. Online vibration data collectors

	CE
Operating	0.15" (4mm) from
Distance	0.5" (12mm) metallic target
Speed Range	1-60,000 RPM
Operating	-10° to 160° F
Temperature	(-25° to 75° C)
Power Required	6 to 36 Vdc, 15mA
Output Signal	PNP open collector
Standard Cable	6 Feet (1.8 m)
Dimensions	2.0" (L) x 0.48" (diameter) (50 x 12 mm)

NOTES: W = tinned wire leads, P = 1/8" (3.5mm) phono plug connector. ROS is available with 8 or 25 foot cable. Additional cable length for all sensors (up to 500 feet) can be purchased and added in the field.

10

performance subject to intensity of ambient light irradiation.

Smart Laser Sensor is an internal battery-powered optical speed sensor utilizing a visible Class 3R Laser for a TTL pulse output. Operating range up to 65 feet (19.8 m) with reflective tape and up to 3 feet* (1 m) from contrasting color targets, keyways, bolt heads or blades.

- "Smart" auto gain provides best performance in picking up target reflections.
 "On Target" indicator
 - TTL pulse output signal inverter switch
 - Manual sensitivity knob provides dynamic fine tuning of sensor response
 - Signal/Pulse/RS232 Output DIN connector port
 - External DC power/recharger port for continuous operation (24/7)
 - Tripod mounting bushing (1/4 20 UNC)
 - Optional RS232, DB9 Pin connector with tinned wire leads

Specifications	Smart Laser Sensor
Optical:	Class 3R (per IEC 60825-1) visible laser 650nm @ 3 mW peak power
Operating Range:	up to 65 feet (19.8 m) from T-5 reflective tape
Speed Range:	1-500,000 RPM
Output Signal:	TTL 5-0 VDC (user selectable polarity), RS232
Operating Temp:	32° to 104°F (0° to 40°C)
Dimensions:	5.41(L) x 2.35(W) x 2.14" (H) (13.74 x 6.43 x 5.43cm)
Mounting:	1/4 - 20 UNC bushing for tripod

Ordering Information SLS-115/230 Smart Laser Sensor with 115/ 230 VAC PR Universal recharger, SLS-CA-BNC cable and 12 inches of Reflective Tape.

DATACHART 1250 PAPERLESS RECORDER **Dual Channel Recording Tachometer**

The DC1250 is a feature rich data acquisition system offering 2 universally configurable isolated inputs for measuring DC voltage, DC current, thermocouples and RTD's as well as frequency and pulse inputs. 4 internal alarm setpoints, 2 alarm relay outputs and 1 digital control input are all standard. A maximum sample storage rate of 100 samples per second can be set for both channels allowing for capture of short duration process signal anomalies. CompactFlashTM cards up to 2 Gigabyte size can be used allowing many data points to be stored over long periods of time.

The DC1250 can be used in conjunction with many of Monarch's speed measurement sensors. Power for sensors is provided from the DC1250 rear terminals. Measure, display and record RPM ranges from 5 - 600,000. Choose the sensor best suited for your application or take your existing signal directly into the DC1250.

9 Vdc +/- 0.5Vdc @ 5VA (depends on external loads) provided

ULTRASONIC LEAK DETECTOR

UltraPro AG500 Ultrasonic Meter and Stethescope

The **UltraPro AG500** is a powerful ultrasonic leak detector and electronic stethoscope for use in construction, maintenance and manufacturing wherever precision gaseous leak detection or diagnostics are required.

Ultrasound is composed of high-frequency sound waves above the range of human hearing. **UltraPro** uses this technology to sense frequencies ranging from 18 to 42 kilohertz, which are electronically translated down into the audible range. Predictive Maintenance uses airborne/structure-borne ultrasound technology to locate leaks in any gaseous systems and to troubleshoot bearings, injectors, solenoid or valve operations. **UltraPro** features a unique Automatic Gain Control which automatically filters the signal to provide the best signal-to-noise ratio, suppressing background noise and pinpointing leaks. The **UltraPro** circuit simplifies operation, removing complicated adjustment knobs and filter switches. **UltraPro** offers superior electronics with rugged industrial packaging and a protective rubberized case in a simple-to-use ultrasonic meter.

Features:

12

- Automatic Gain Control
- Simple Operation
- 10 Element LED Bargraph Display
- Industrial Rubber Holster
- · Air and Contact Probes
- Audio Output (3.5mm headphone jack) with Volume Control
- · Earbud headphones included

- Vacuum/Air Leaks
- Bearings/Valves
- Pressure Leaks
- Water Leaks

UltraPro AG500 Ultrasonic Leak Detector

Ordering Information

Latching Carrying Case

UltraPro AG500 System includes: Detector, Headset, Air and Contact Probes, Tone Generator, Batteries and Padded Nylon Carry Case. Monarch Ultrasonic Tone Generator is a battery-powered continuous tone source of 40 kHz. It effectively allows you to *"pressurize with noise"*. It is capable of 155 dB and transmits up to 40 feet. Ideal for enclosed vessels, tanks and buildings. Easily locate seal leakage.

Locate Pin-Hole Leaks

Using the air probe you can locate pin-hole leaks up to 10 feet away. Find pressurized or vacuum leaks on all types of gases such as air, freon, nitrogen, propane, etc.

Listen to Bearings, Gear Boxes and Steam Traps

Use the contact probe to listen to bearings, gearboxes, valves, steam traps etc. Easily compare noise levels between like objects.

Place the tone generator inside a vehicle, closed vessel, container or building and search for leaking seals and gaskets around doors and windows.

FIBERSCOPE VISUAL INSPECTION TOOLS FSI and FSX Series Flexible Fiberscopes

Monarch Flexible Fiberscopes are perfect for inspecting interior areas which are difficult to view. Optical inspection can save thousands of dollars in preventing unnecessary disassembly of complex machines. With the FSI or FSX Fiberscopes, visual inspection can confirm your diagnosis, ensure proper assembly and welded joints or even locate a dropped component.

FSI and FSX Features:

- Superior Resolution 7400 Pixels
- Water/Chemical Resistant
- 40° Field of View
- 10mm and 6mm Diameters Available
- · Bending Radius down to 3 inches

Monarch FSI Series Flexible Fiberscopes are selfilluminating with either LED or Halogen lamps. Both 10mm and 6mm diameters are available in lengths of 24, 36 and 48 inches.

Monarch FSX Series Flexible Fiberscopes require an optional external light source. (Order the Scorpion Xenon flashlight). Only 6mm diameters are available in lengths of 24, 36, 48, 60, 72, 84 and 96 inches.

Common Applications:

- Automotive/Marine
- Security

FSI Flexible Fiberscope

Scorpion Halogen Flashlight for FSX series fiberscopes

Monarch FSI and FSX flexible fiberscopes include padded latching carry case with operation manual (optional clip on mirror shown).

Monarch FSI 10mm Series Flexible Fiberscope shown with powerful bright white LED illumination and optional clip on 45 degree mirror attachment. An optional clip on retrieval magnet is also available.

Plumbing and Construction

Inspect drains for blockages and lost items. Inspect behind walls for water or insect damage. Watertight tips eliminate worry of damage.

Electrical and HVAC

Inspect electrical wire routing and condition or HVAC ducts for leaks and dust buildup.

Gas and Diesel Engines

Inspect pistons, cylinder walls and T-belts. Look inside A/C ducts for mold and mildew buildup. Find oil and water leaks in hidden areas.

CORPORATE HISTORY

Innovation in Instrumentation

Monarch International, Inc. was founded in 1977 as a sales and service organization for a diverse range of instrumentation. In 1982, the Monarch Instrument Division was established to manufacture and market the first microprocessor based portable tachometers.

Monarch International's 30,000 square-foot facility in Amherst, New Hampshire, U.S.A.

With the addition of new models of tachometers and the introduction of the Nova-Strobe Series of portable stroboscopes in 1990, Monarch rapidly became the worlds' largest supplier of rotational speed measuring instrumentation and stroboscopic inspection equipment.

In 1992, Monarch introduced the DataChart[™] Paperless Recorder. Today, we offer a wide range of technical capabilities and competitive pricing throughout the DataChart[™] product line to include color touchscreens and multi-channel recorders.

equipment

CE

ISO9001:2008 Certified

Monarch Instrument also manufactures a full line of paperless recorders and compact data loggers please visit www.monarchinstrument.com for more information.

"Innovation in Instrumentation" is the Monarch design philosophy and in recent years we have introduced state-of-the-art products:

- Pocket Laser Tachometer
- **PALM STROBE x**
- Nova-Strobe dbx Stroboscope
- Examiner 1000 Vibration Meter
- ► DataChartTM 1250 Paperless Recorder

Monarch Instrument remains committed to innovations and quality in sales, customer service and manufacturing.

Thank you from all of us at Team Monarch

Our full service sales force and world-wide distribution force stands ready to answer purchase and product application questions Please feel free to contact us via our toll free telephone line, website, e-mail, fax or surface mail. We offer a comprehensive line of precision products and calibration services, all with the convenience of the Internet.

Monarch Instrument pursues a policy of continuous development and product improvement. The specifications in this document may therefore be subject to change without notice. © Monarch Instrument 2011 Printed in the USA 2/2011 3K TJF
