IdeaMax®
Interactive Whiteboard
Series R5

PRODUCT FAMILY # EPR5500

Porcelain Enamel Interactive Board Technology

New! The IdeaMax® Series R5 Interactive Whiteboard combines Infrared Finger Touch Technology and our unique Matte Finish Porcelain Surface for the finest projection and writing surface available. Unravel complex or simple lesson plans with the Interactive Software that allows you to control, highlight, choose responses, draw, make notes or illustrate key points with your finger or dry erase marker on the same board. Save space and eliminate the added cost of both traditional and interactive boards with the IdeaMax® Series R5.

Newline

Create   Promote creativity using versatile digital resources and on-task simulations. Customize on-screen lessons that include rich multi-media, sound, and video. Incorporate a broad range of multimedia Internet resources and classroom content.

Motivate   Inspire spontaneity and encourage whole-class participation, discussions and evaluation. Active content draws your audience in, involving them as part of the learning process.
