

PLUS electronic copyboards combine ease of use with advanced features making them an ideal presentation tool for both business and education.

M series COPYBOARDS

With the push of a button . . .

Print in full color,

Save to CompactFlash.

Designed to distribute as well as present information, the M Series line of Copyboards allows one to either print in full color or save presentations to a CompactFlash card. All of this with the simple touch of a button and without ever having to hookup to a computer. Not only can you share your presentations on paper, but you can also store and share your notes digitally -- view them on a computer, project them with a PLUS projector, even send as email.

BF series COPYBOARDS

PLUS's economical BF Series comes with a built-in thermal printer. With as many as four writing panels, wide and standard width models, and options like direct PC connectivity, and a built-in projection screen, the BF series provides the functionality demanded by today's business and education professionals.

The Popular Choice
For Professionals World Wide.

PLUS Electronic Copyboards

Whenever it's important for all your people to stay on the same page...

PLUS has a full featured, high-tech, electronic copyboard to help them do it.

Your audience will never have to worry about taking notes again! You simply write on the copyboard and immediately print out the information on paper or download it to a personal computer. Everyone can now get on - and stay on - the same page. Your page!

Standard/Wide M-10 S/W

The world's first copyboard with a memory card slot! Remote or absent participants can now receive meeting results via e-mail or included in an electronic presentation.

- Two 36 x 51 inch writing panels (S) - Two 36 x 70 inch writing panels (W)
- CompactFlash Memory
- 4 color plain paper printing
- USB connection for printer
- Floor standing and wall mountable (stand sold separately)

Standard/Wide BF-030 S/W

The popular choice for meeting professionals everywhere because it delivers an extremely high performance.

- Two 36 x 51 inch writing panels (S) - Two 36 x 71 inch writing panels (W)
- Copy functions include single panel copy and two panels reduced to one page
- Built-in thermal printer
- Optional PC connectivity kit
- Floor standing and wall mountable (stand sold separately)

Four Panels & Projection Screen BF-035

They don't make them more functional than this one! The five-panel PLUS BF-035 copyboard is the model professionals worldwide rely on, as they don't want to break their train of thought.

- Four 35 x 49 inch writing panels
- One 35 x 49 inch built-in projection screen (the fifth panel. Auto Projection Screen Select key)
- Copy function includes single panel copy and repeat feature which enables copying of the previous panel
- Built-in thermal printer
- Optional PC connectivity kit
- Floor standing only

Compact Model M-5

Half the size of the revolutionary M-10, the M-5 is packed with advanced features and functionality in a much more lightweight size! Use in horizontal position or flipchart style vertical format.

- Two 25 x 40 inch writing panels
- Multiple Positions - Horizontal or Vertical
- CompactFlash Card
- Direct PC connectivity
- Built-In Storage
- Floor standing and wall mountable (stand sold separately)

shown in vertical position

PLUS copyboards are wall mountable (except BF-035), cubicle mountable (M-5 only, with cubicle mount kit), as well as free standing (with optional stand).
