The next generation of black & white copyboards.

NEW

M-17 Series Electronic Copyboards

The most affordable copyboard for your most productive meetings.

PLUS Electronic Copyboards allow you to save or print out the notes that you have written on the board's surface. Using PLUS Copyboards makes meetings more productive as well as more lively. Such simple operation brings dramatic results!

PLUS

The PLUS M-17

Updated & Slimmed Down

Building on the success of the BF Series, the new PLUS M-17 is thinner, lighter, loaded with advanced features and yet remains competitively priced. Its clean, stylish appearance will compliment a variety of business and office environments.

Slim Profile

The M-17 has been slimmed down from the previous BF Series model, going from 5 inches in depth to under 3 inches. The slimmer and lighter M-17 is more easily mounted on a wall and takes up less space in your meeting room or office.

Faster Scanning Time

PLUS has once again improved scanning time. The M-17S scans in a mere 15 seconds, an improvement of 8 seconds over the previous model.

Smooth Hand-Scrolling

The surface of the M-17 is easy to move when using just your hand. The scrolling force needed has been reduced to 7 oz (0.2kg) — a vast improvement compared to the previous model's 3 lbs (1.4kg).

Easy-Access USB Port

The USB port is located on the front of the board for easy access when saving to a USB memory stick.

Built-in Software

No need to install software. Just connect your computer to the M-17 using a USB cable to save an image. Both PC and Mac compatible.

Eco-friendly, Low Power Consumption.

The M-17 was designed to be both environmentally friendly as well as economically friendly. Power consumption has been reduced to 12W/2W (M-17S) from the previous 120W/60W (BF). [Operation/Standby]
