High Quality and Performance

20% brighter light transmission and improved image resolution than its predecessor. Sealed microscope body effortlessly withstands harsh environment.

Maintenance-Free

Highly durable and reliable microscope body & eyepieces do not require any maintenance. LED bulbs in the light source eliminates the need for conventional bulb replacements.

Upgradable System

Available upgrades on eyepieces, objective lens, light sources and many other microscope components allows flexible adaptation to your changing workflow.

Adjustable LED Ring Light

Bright, lasting, low cost, and compact adjustable LED ring light does not require frequent maintenance.
