

Models ST101 & ST102

Socket Testers

ST101 Specifications

Rated Operating Voltage	110 - 125 V AC
Wattage	0.3 W
Indicator Lamps	Three, incandescent
Lamp Lens Colors	One red, two amber
Six Conditions Indicated	Open ground, open neutral, open hot, hot/ground reverse, hot/neutral reverse, correct
Safety Agency Approvals	UL and cULus
Warranty	90 Days

ST102 Specifications

Rated Operating Voltage	110 - 125 V AC
Wattage	0.3W
Actuator	Black button
Indicator	Red LED
Indicator Lamps	Three, incandescent
Lamp Lens Colors	One red, two amber
Six Conditions Indicated	Open ground, open neutral, open hot, hot/ground reverse, hot/neutral reverse, correct
Safety Agency Approvals	UL and cULus
Warranty	90 Days

ST101, Socket Tester

- Fast, easy socket test
- Easy to read light indicators
- Confirm proper wiring and operation of AC socket
- For use on 110-125 V AC

ST102, Socket Tester with GFCI

- Test GFCI breakers for proper wiring and operation
- Easy to read light indicators show common wiring problems
- Confirm GFCI socket is wired for protection
- GFCI circuit trips to confirm tester is working
- For use on 110-125 V AC
