AVerVision CP300

Portable Document Camera

folded view

Product Description

The new AVerVision CP300 Interactive Document Camera not only allows for the display of documents and objects on a large screen, but now includes the ability to connect all document cameras in one campus together through the existing Local Area Network, providing the ability for multiple classrooms, or even the entire school to view and share live document camera lessons and demonstrations. Document camera functions such as annotation, image capture, video recording, zoom, and more can also be controlled by each classroom accessing the demonstration on the network. Whether using the AVerVision CP300 on the network or individually, the new software is complete with full annotation, video recording with audio, document camera controls, and more. These enhanced features make the AVerVision CP300 truly interactive and intuitive, whether in a single classroom, or campus-wide. The enhanced 3.2 mega pixel image sensor provides unmatched image clarity, while a variety of exclusive features and functions make the AVerVision CP300 a complete, interactive classroom presentation tool!
network sharing and annotation software

included enhanced annotation features with the ability to share live presentations over a local area network
enhanced image clarity

the 3.2 mega pixel sensor produces extremely clear images; however, updated hardware greatly enhances the clarity and sharpness, offering a better overall image

auto focus system

in no time

one-touch fast and accurate auto focus adjusts the image to provide the highest clarity in the shortest amount of time

advanced and exclusive presentation features

feature rich including laser positioning guides, picture-in-picture, split screen, AVer Box, AVer Visor, and annotation software

patented portable design

the all new design includes a strong and stable flexible neck, while the camera head can be locked to the side of the unit for safe storage and transfer

patented laser positioning guides

built-in flip over LED light with laser positioning guides

// Product Specifications and Package Content

image sensor	1/2" CMOS color sensor		**network sharing**	yes, with AVerVision software
pixel count	3.2 mega pixel		**light**	yes, with laser guides
maximum output resolution	1280 x 720 WXGA		**base light**	optional
total zoom	16x		**picture-in-picture**	yes
XGA resolution output	n/a		**split screen**	horizontal / vertical
			AVer Presenter features	yes
HD resolution output	n/a		**effects**	color / b&w / negative
			night view	yes
AVERZOOM™	2x		**text/graphic modes**	yes, with hi frame
digital zoom	8x		**image rotation**	0 / 180 degrees
frame rate	24 fps (max)		**image freeze**	yes
lens	F=3.0, fl=9.6mm		**image mirror**	yes
focus	auto/manual		**remote control**	yes, with laser pointer
white balance and exposure	One-Touch control / manual		**carrying bag**	yes
built-in memory	80 images		**dimensions**	6.7" x 8.1" x 17.7" (set-up)
SD card slot	n/a			12.2" x 10.8" x 2" (folded)
vga input	yes, passthrough		**weight**	5.3 lbs
vga output	yes		**power source**	AC 100 to 240V, 50/60 Hz
dvi-i output	yes		**certifications**	FCC, UL (power adapter)
video output	S-Video, composite		**warranty on main unit**	5 year limited warranty including
audio in	no			LED light. All warranty applies to
audio out	no			parts & labor only.
rs232	yes, with adapter		**warranty on accessories**	1 year limited warranty
usb2.0 to pc port	yes		**special warranty**	1 year AVERCPR™
network ethernet port	no		**optional accessories**	Microscope adapters (28mm and
software (WIN and MAC)	yes, free updates via website			34 mm), lightbox, carrying bag,
image & video(with audio) recording	yes, with AVerVision software			anti-glare sheets
annotation	yes, with AVerVision software
