AVTEQ's Plana Series' consoles are specifically designed to implement plasma and LCD monitors into your current or future videoconferencing solution. The TT-1 can be added on to any console in the Plana Series. This accessory allows the user to mount one 30" to 60" plasma or LCD on top of the console. It eliminates the necessity to purchase the manufacturers table top mounting feet. Every mount also comes standard with an adjustable rear mounted camera stand for your set-top videoconferencing systems or camera. Every product in this line comes with a 3 year warranty.

FEATURES:

- ▶ Rear mounted adjustable camera shelf
- ▶ Wire Management System routes cables to and from the screen into the console
- ▶ Rear cover completely hides cables
- ▶ Solid steel construction
- ▶ Durable scratch resistant powder coat finish
