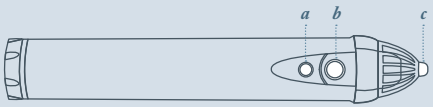
- Stylus includes extra Teflon® nibs
- Active area: up to 100" diagonal
- Bluetooth Wireless and/or USB connectivity
- Special PowerPoint® tool palette
- Windows and Macintosh versions
- Two year limited warranty

eBeam projection

eBeam Projection works with your digital projector and any standard whiteboard to create an interactive workspace where you can easily present, collaborate, and build lessons. The portable receiver mounts in any corner of the board and supports up to a 100" projection area. The system includes a two-button stylus that allows one-touch access to left and right-click functionality as well as showing and hiding the tool palette.

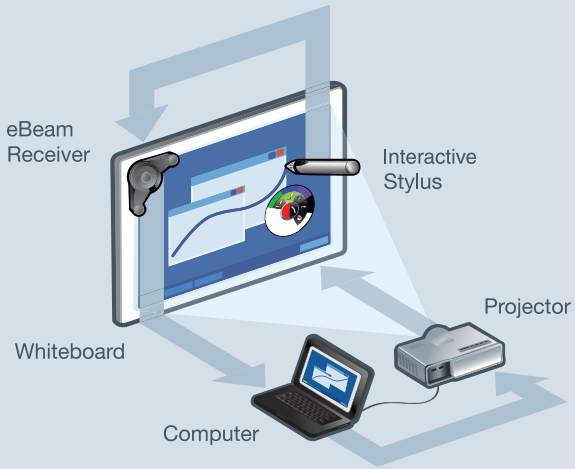
eBeam Interact software is a simple yet powerful set of tools that breaks the paradigm of clunky software. The customizable, circular tool palette delivers the functionality you need for the application at hand. Collaborate with students or teachers anywhere in the world and share office documents, pictures or screen captures. Even record voice with your presentations and post them for others to watch.



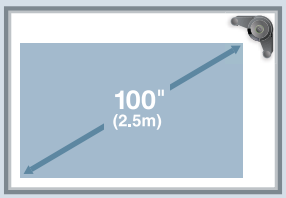
***a)*** **MENU** *for accessing the interactive palettes from anywhere on the projected display area*

***b)*** **RIGHT-CLICK** *works just like your mouse*

***c)*** **TEFLON TIP** *for long-lasting precision and accurate feel (functions as left-click)*



## SPECS



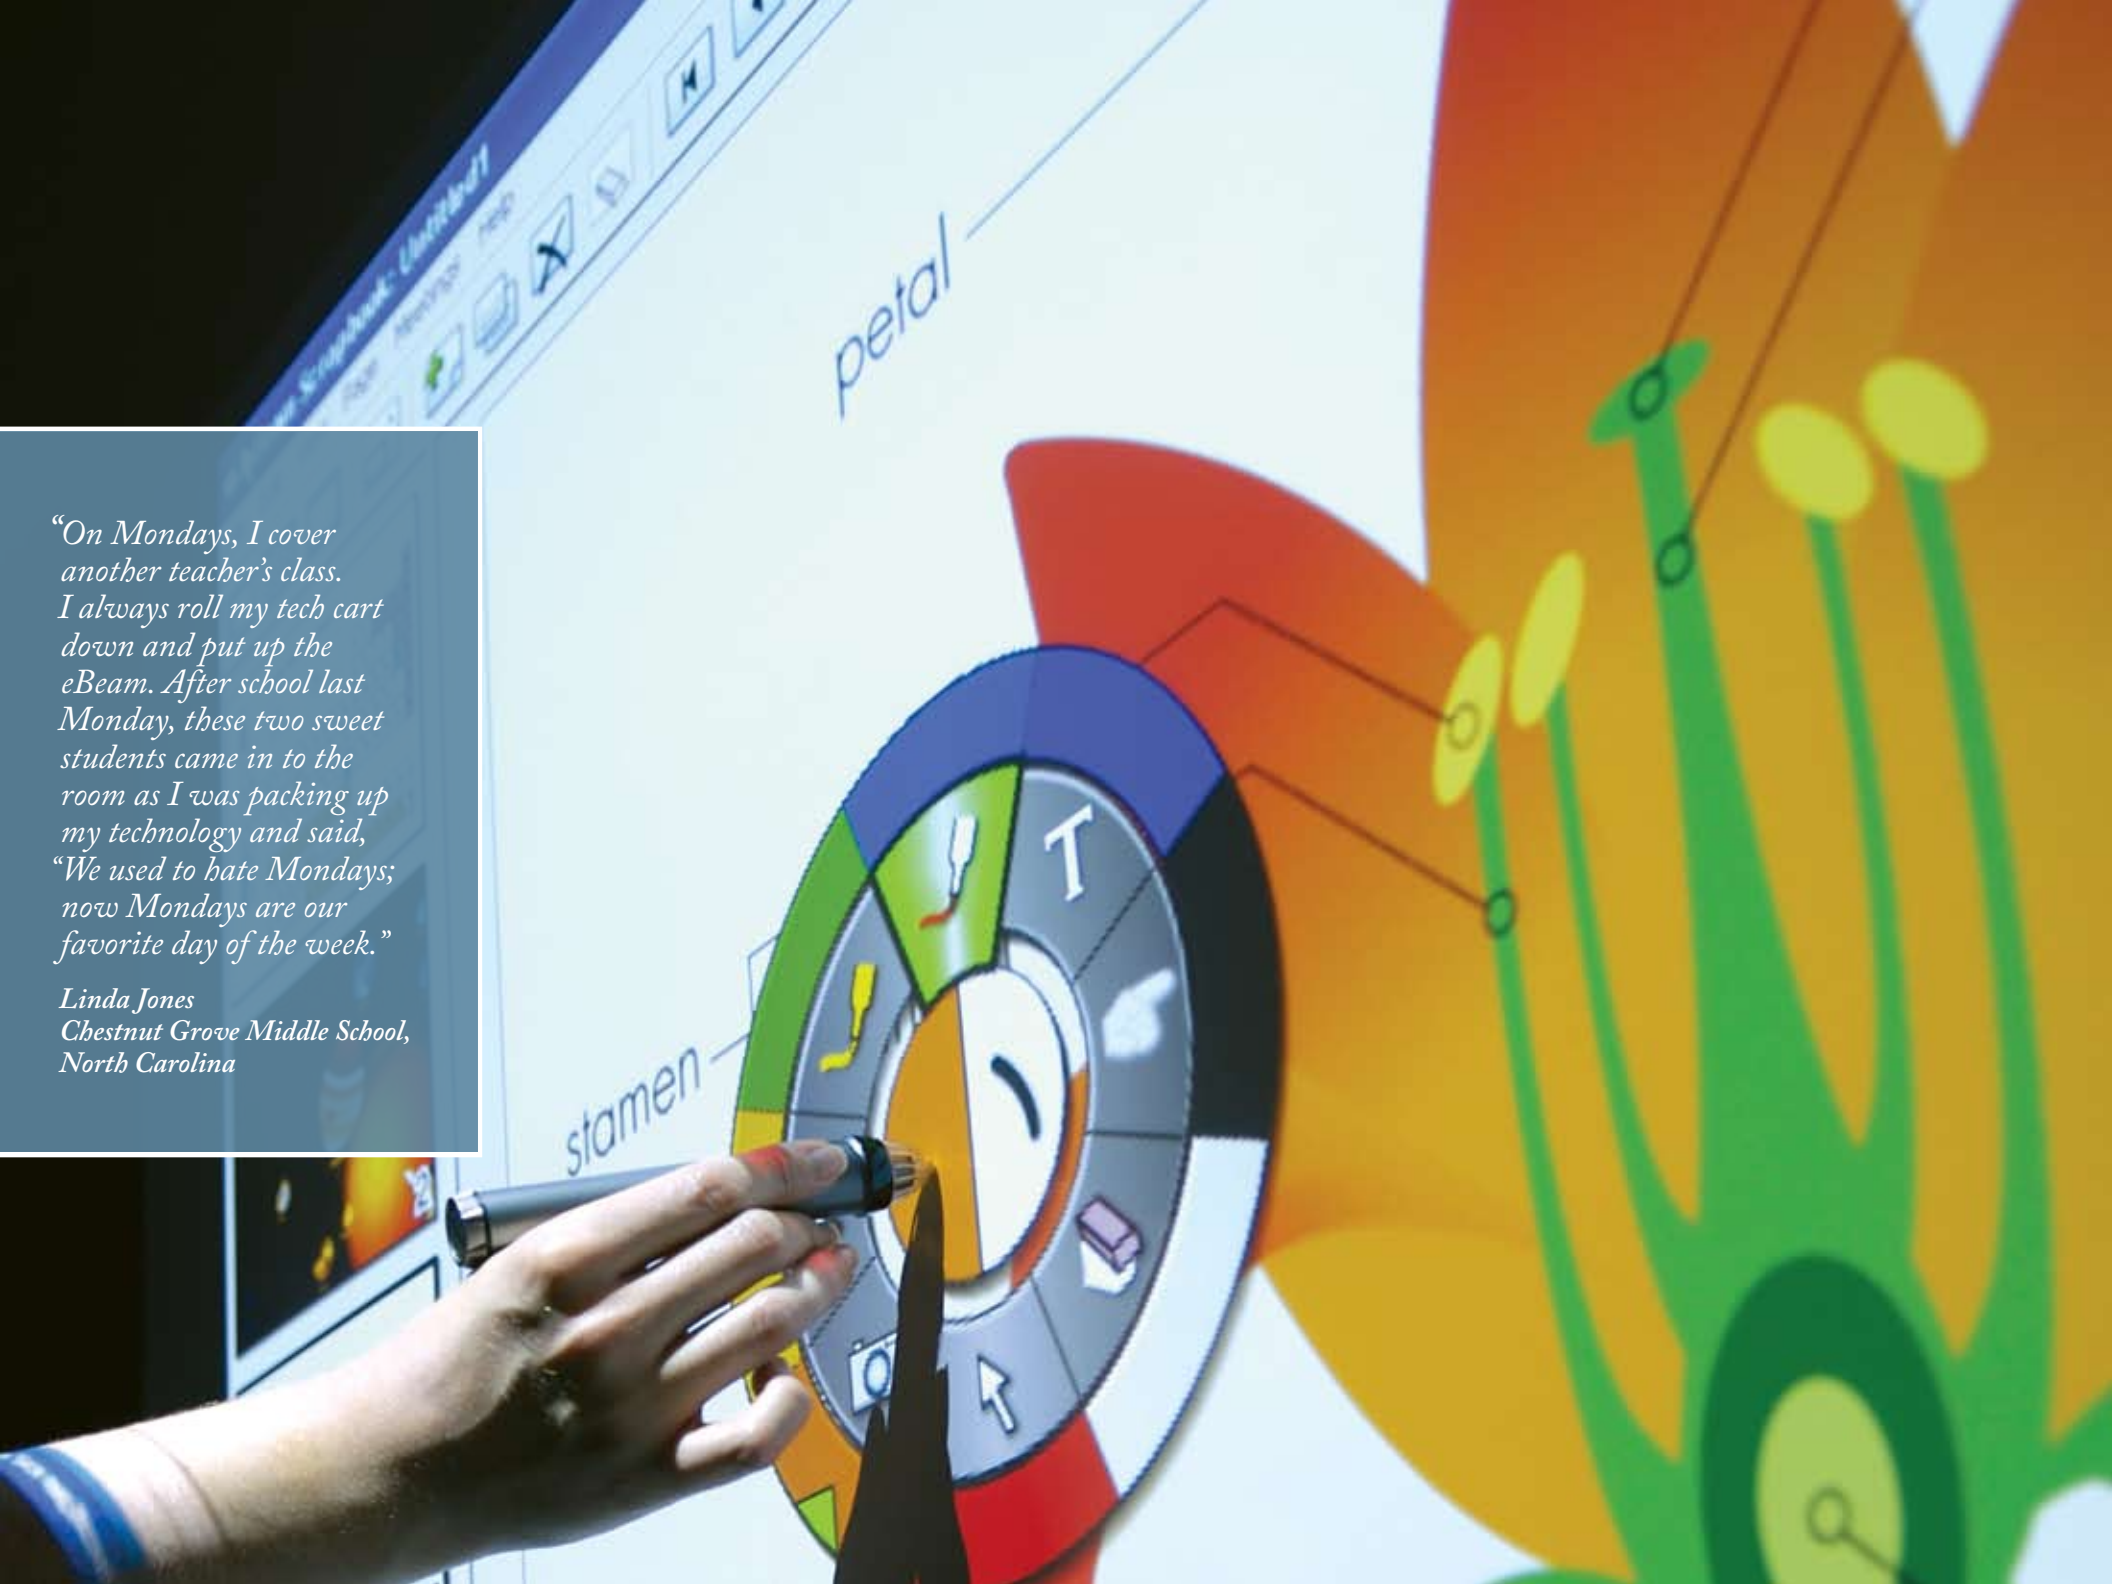
Capture up to: 100" (2.5m)

## FEATURES

- Portable enough to carry in your laptop bag
- Easy to set up
- Includes Internet sharing, voice recording, and software updates

## BENEFITS

- Keep a record of your classroom presentations
- Set up an interactive whiteboard anywhere
- A cost-effective way to create a digital classroom



*"On Mondays, I cover another teacher's class. I always roll my tech cart down and put up the eBeam. After school last Monday, these two sweet students came in to the room as I was packing up my technology and said, "We used to hate Mondays; now Mondays are our favorite day of the week."*

# eBeam Whiteboard

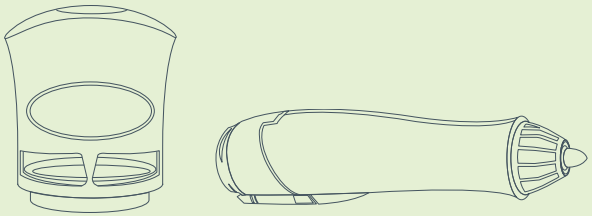
## Capture Dry Erase Notes From Any Standard Whiteboard

## HIGHLIGHTS

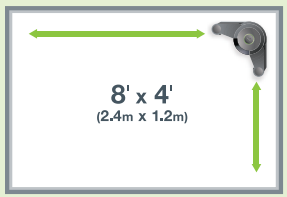
- Captures up to 8' x 4' area
- Marker sleeves use regular dry erase markers
- Free and secure Internet Boardcasting
- Receiver can be updated from our website
- No projector required
- Bluetooth Wireless and/or USB connectivity
- Two year limited warranty

eBeam Whiteboard turns any standard whiteboard into a digital copyboard and lets you save, print, or share your whiteboard notes with anyone in the world. The compact eBeam receiver captures writing on whiteboard areas up to 8' x 4'. The four electronic marker sleeves use standard dry erase markers that can be changed in a few seconds.

eBeam Capture software records every pen stroke you mark on your board so you don't lose any of your important ideas. Easily and securely broadcast your whiteboard notes over the Internet in real-time to anyone who couldn't make it to class. Record your voice with your lecture to make your lesson available online for absent students or remote teachers.



## SPECS



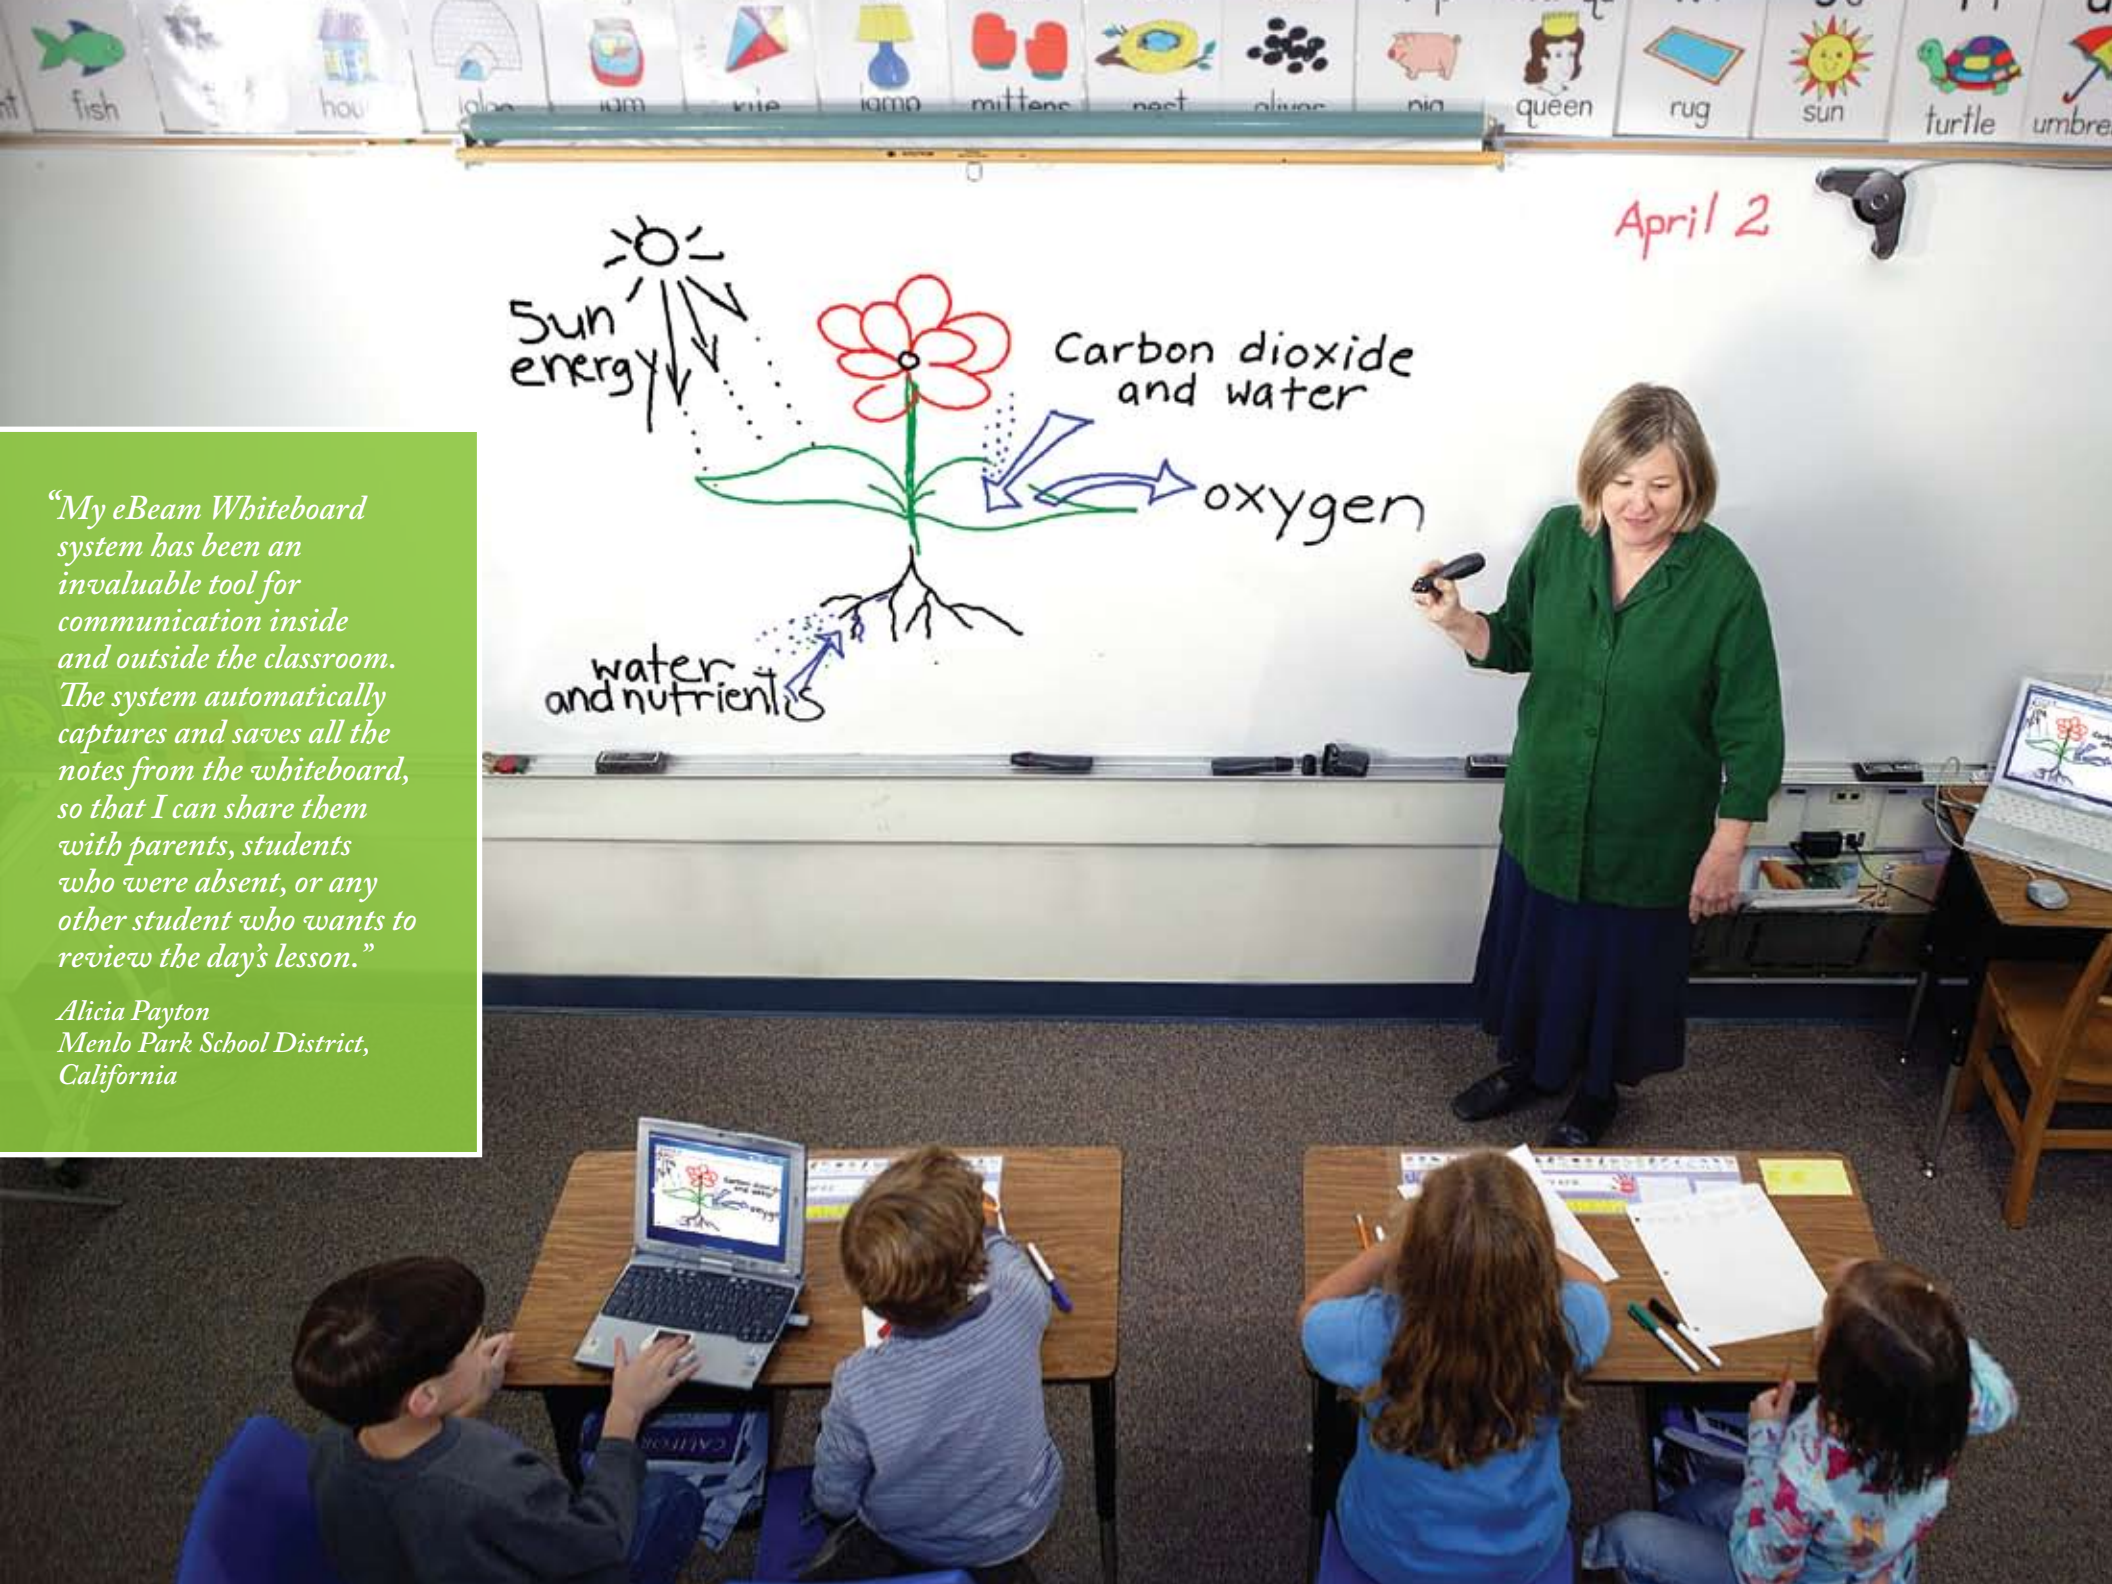
Capture up to: 8' x 4' (2.4m x 1.2m)

## FEATURES

- Portable and easy to set up
- Works on your existing whiteboard
- eBeam Capture opens automatically when you write

## BENEFITS

- Your notes are no longer confined to the classroom
- Handout the printed notes at the end of class
- Post lectures to the Web



*"My eBeam Whiteboard system has been an invaluable tool for communication inside and outside the classroom. The system automatically captures and saves all the notes from the whiteboard, so that I can share them with parents, students who were absent, or any other student who wants to review the day's lesson."*

*Alicia Payton*
*Menlo Park School District, California*

# eBeam Complete

Real Ink. Digital Ink. Capture It All.

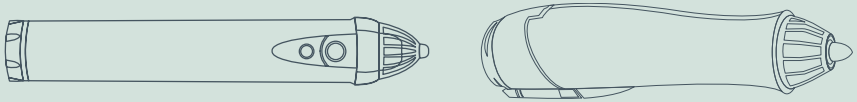
## HIGHLIGHTS

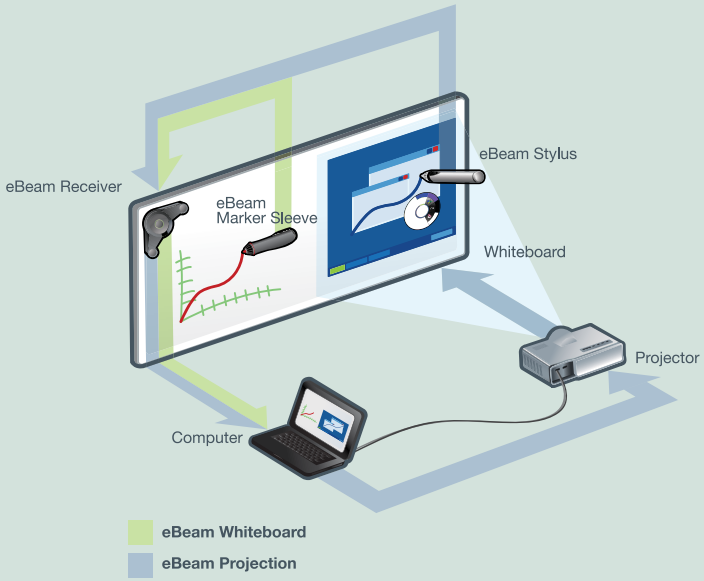
- Perfect combination of an interactive whiteboard and a digital copyboard
- Easily detached and stored to prevent damage or theft
- Free and secure Internet/intranet sharing
- Software launches when a marker sleeve or stylus touches the board
- Stylus includes extra Teflon® nibs
- Marker sleeves use regular dry erase markers
- Projection active area: up to 100" diagonal
- Whiteboard active area: up to 8' x 4'
- Bluetooth Wireless and/or USB connectivity
- Two year limited warranty

eBeam Complete is the perfect combination of a fully featured interactive whiteboard and a next-generation digital copyboard. The eBeam receiver is not only powerful but compact, so the entire system is portable enough to carry in a laptop case. The interactive stylus allows full control of your computer on a projected area of up to 100". Use any one of the four color-coded marker sleeves to capture all of your dry erase marker notes.

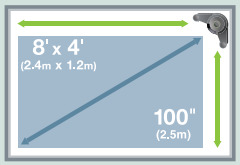
eBeam Interact and Capture software work seamlessly together to ensure all the valuable work on your board is recorded on your computer. Touch the interactive stylus to the board and Interact automatically launches or touch any of the marker sleeves to the board and Capture opens.

Whether you need to deliver dynamic presentations or capture all of your whiteboard drawings, eBeam Complete can do it.





## SPECS



- Projection: Capture up to: 100" diagonal (2.5m)
- Whiteboard: Capture up to: 8'w x 4'h (2.4m x 1.2m)

## FEATURES

- Includes Internet sharing, voice recording, and software updates
- Ultra-portable and easy to set up
- Works with your existing whiteboard and digital projector

## BENEFITS

- One system provides two separate functions
- A cost-effective way to create a digital classroom
- Flexibility to teach the way you want

*"The eBeam product has allowed us the freedom to continue to use the dry wipe boards already in classrooms as well as adding the Interactive aspect to our teaching. We were also impressed by the whiteboard capture system that allows us to record the notes we make and then re-project them at a later point so freeing up the dry wipe board for other uses."*
