RMTM Slate

Your World Will Never Be the Same

RM Education is a worldwide leader in developing outstanding technology tools specifically for the K-12 classroom to engage students, inspire learning and provide teachers and administrators the tools they need to support student learning. Because our entire focus is on the K-12 market, we are passionate about delivering what matters for administrators, educators and students to achieve success.

RM now introduces the first handheld tablet designed for K-12 students and educators. The RM Slate is a revolutionary tablet that uses Windows 7 so you can run Microsoft Office and most other applications written for personal computers. It is light (2 lbs.) and compact (1/2" thick), but with a large screen (over 11"). With the multi-touch screen, pen stylus (optional), and handwriting recognition, it is easy for users to input and manipulate data, notes, ideas and more.

The RM Slate makes it easy, and fun, to:

- **Surf** the web, using Internet Explorer, Chrome, Firefox, or any other common browser
- **Connect** with students, parents and colleagues using Microsoft Outlook
- **Share** your social world with Facebook, Twitter, Skype and Flickr
- **Shoot** your own photos and videos in HD
- **Edit and view** your images and share them with others
- **Read** a book or watch a movie
- **Record and listen** to your favorite music

The RM Slate comes pre-loaded with essential classroom software:

- **RM Easiteach Next Generation**, the award-winning application that helps teachers create and deliver engaging multi-modal activities and lessons
- **RM Podium 2.0**, the podcasting solution designed for education allows students to display and extend their creativity using audio AND video as a means of expression
- **RM Sonica**, the language acquisition program for ELLs that accelerates learning with contextual content and a range of highly interactive activities

Why the RM Slate?

The RM Slate offers educators features that other leading tablets do not, including:

Windows 7 – Utilize any application that you would run on your Windows computer.

Flash – Enjoy rich media experiences and high-quality videos developed in Adobe Flash

Peripherals – Connect to peripherals using the 2 USB and HDMI ports

Speed – 64-bit CPU and Intel N450 processor make the RM Slate 4x faster than the leading pad

Memory – Do and save more with the SD Memory Card Expansion Slot

Video – Capture videos with the built-in 1.3 megapixel camera
