Multi Video Product MVP-100

The MVP-100, is the first camera with a durable exterior finish boasting aluminum construction to meet the rigors of daily use. The Multi Video Product or MVP is a line of high resolution cameras with multiple signal outputs. The MVP-100 has high resolution output signals for Composite, S-Video, USB, SVGA and network. This camera comes complete with Applied Vision™ Software for USB. The RJ-45 or network output works with any Internet Explorer and does not require any localized software. The Composite and S-Video output is ideal for VCR's, televisions or multimedia projectors, while the VGA input and output (15 pin D Sub) is designed to maximize the interaction of your computer and multimedia projector. Manage the use of your audio visual electronics through the easy to use touch pad which controls positive/negative, split screen, brightness, mirror, freeze, iris control and computer (switch between camera and computer right on camera base without using projectors remote control).

Contact Ken-A-Vision for information on the up coming MVP-200 and MVP-300!
