KNOWLEDGE THROUGH VISION

Multi Video Product MVP-50

The MVP-50, is the first camera with a durable exterior finish boasting aluminum construction to meet the rigors of daily use. The Multi Video Product or MVP is a line of high resolution cameras with multiple signal outputs. The MVP-50 has high resolution output signals for Composite Video, S-Video, USB, and SVGA. This camera comes complete with Applied Vision™ Software for USB. Applied Vision Software offers features such as live video at full screen, capture of stills, movies and time-lapse, anotate, measure, magnify, amalgamate, and video streaming. The Composite Video and S-Video output are ideal for VCR's, televisions or multimedia projectors. The VGA input and output (15 pin D Sub) is designed to maximize the interaction of your computer and multimedia projector. Manage the use of your audio visual electronics through the easy to use touch pad which controls positive/negative, split screen, brightness, mirror, freeze, iris control and computer (switch between camera and computer right on camera base without using projectors remote control).
