Turn any whiteboard into an interactive whiteboard!

mimio Xi is the no compromise, affordable alternative to costly and complex 'standalone' systems

Interactivity has never been simpler

Affix the mimio bar to any regular dry erase whiteboard (or suitable solid projection surface) and it's instantly transformed into a high performance interactive whiteboard system. Mobile users, especially, will appreciate mimio's portability!

Full 'at the board', touch-screen control

Use the new mimio Mouse (or a mimio stylus) to control computer applications from the whiteboard:

- Navigate educational CDs and other interactive curriculum content
- Browse web sites & control PowerPoint slides, Word, Excel etc.
- Annotate & mark up as you go and save screen shots
- Present interactive content created in mimio Studio

Featuring

mimio® Studio

Powerful interactive resources & content creation software

Meets the needs of the most demanding interactive whiteboard user!

- Create content rich lessons and presentations in mimio Studio Notebook
- Insert text, graphics, photo images and screen captures, plus backgrounds from the gallery
- Embed hyperlinks for shortcut page navigation or linking to other files, applications, or web pages
- Rich array of interactive tools
- Multiple annotation, mark-up & shape options
- Spotlight & reveal for screen emphasis
- Capture screen shots (full screen or selected elements) for integrating into mimio Notebook or galleries

mimio Studio - optional add-ins (Windows only)

NEW

mimio Recorder
- *Capture whiteboard and other screen activity 'movie style', with audio*
- *Playback in Windows Media player, Quicktime etc.*

mimio Writing Recognition
- *Converts whiteboard notes into formatable text*
- *Live insertion of on-screen annotations into Windows applications*

Free 30-day trial included with mimio Studio

† The British Educational Communications and Technology Agency.

Whiteboard Solutions for Everyone

mimio
Whiteboard Capture
Solution

Whiteboard capture highlights

- *Instantly affixes to any regular whiteboard*
- *Up to 4' x 8' (1.2m x 2.4m) capture area*
- *Lightweight, portable - uses regular (Expo™) markers in mimio styli*
- *Optional wireless upgrade*
- *Computer-free recording, with on-board memory - store up to 10 hours notes for later download*
- *Combine up to four mimio units for ultra-large surface*

Included software
mimio Studio

- *Notes captured direct to mimio Notebook - in real-time, color & ultra-high resolution*
- *View board-by-board in mimio Studio*
- *Edit notes and integrate with text, graphics, images etc.*
- *Powerful zoom - see the smallest detail!*
- *Print, email, post to websites or copy notes to other applications*
- *Save notes as Web page (.html), PDF file, .bmp .emf .gif .jpg .png .tif .wmf*
- *Share whiteboard online with links to NetMeeting or via 3rd Party conferencing & collaboration solutions*
- *Optional add-ins to convert notes to text or record with audio*

Capture, store and share all your whiteboard notes and ideas!

Whether you teach or present, host meetings or run training sessions, if you use a regular dry erase whiteboard, then you really do need mimio Xi!

No more note taking or "do not erase" stickers!

Simply attach mimio to your whiteboard and everything you write or draw is digitally captured to your computer – instantly and in color – for board-by-board playback in mimio Studio. Now students and colleagues can focus on what's being presented, rather than note taking.

Think it. Share it.

Here are just a few ways to share whiteboard materials:

- Review boards to show the development of concepts.
- Archive on your web site – ideal for absent students & colleagues, or for revision
- Email to attendees – unedited or edited, e.g. as PDF or HTML file, or 'as is' for anyone with mimio Studio.
- Print and distribute on the spot.
- Convert hand-written notes to typed text with mimio Writing Recognition - see over
- Copy complex whiteboard materials into other applications.
- Collaborate with remote colleagues and clients, live, via the Internet.
- Record the entire whiteboard session (with audio) using the new mimio Recorder - see over

Choose the mimio system for your needs

mimio capture
Capture & share your whiteboard notes
