

Face Your Audience *With Confidence*

Annotate Directly On Your Monitor!

Intellimonitor™ 19" LCD Tablet Monitor

Now your monitor is also an interactive experience! Install the accompanying software, connect the Intellimonitor to your computer's USB and VGA ports, plug in the power cord and you're ready to go! Touch the screen with the electronic pen and experience the immediacy and excitement of navigating any Windows program with speed and accuracy.

The Intellimonitor utilizes electromagnetic technology, which guarantees high accuracy and a fast transfer speed. It also features an adjustable stand to change the viewing and writing angles for use at a podium, conference table or desk. Install the software on the accompanying application software CD for a variety of easy-to-use Presentation Tools. Access Annotation Pens, Reveal, Spotlight and more through the floating toolbar. Powerful Virtual Whiteboard (VWB) software brings discussions alive by allowing you to illustrate your points to your audience through drawings or taking notes. Now the pen is mightier than the mouse!

The Intellimonitor is an excellent investment for the average Windows user who wants to benefit from interactive presentation technology without the hours of learning and preparation time associated with other interactive presentation systems.

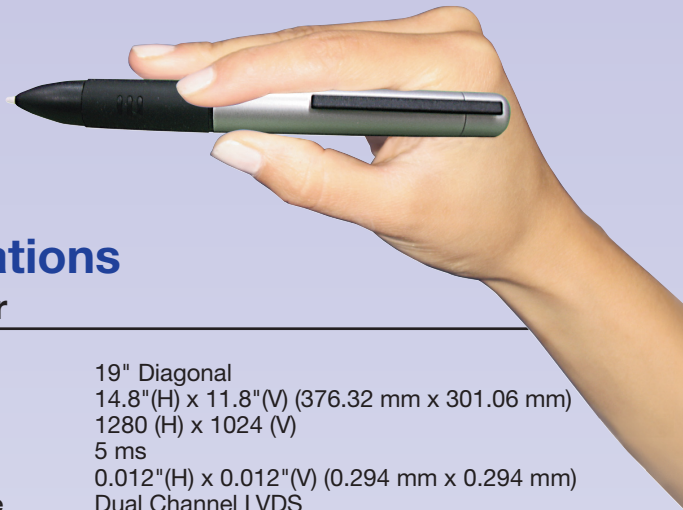

The Intellimonitor Product Features:

- Easy to learn and use. Simply pick up the pen and replace the mouse
- Electromagnetic technology makes it fast and accurate—make your point quickly
- Adjustable stand that pivots from 16° to 75°
- Front panel controls
- Annotate directly on the LCD monitor with the interactive pen for powerful communication capabilities after installing the application CD
